*The Oxford History of Life-writing* Karen Anne Winstead, Alan Stewart, 2018 The Oxford History of Life Writing Volume 1 The Middle Ages explores the richness and variety of life writing in the Middle Ages ranging from Anglo Latin lives of missionaries prelates and princes to high medieval lives of scholars and visionaries to late medieval lives of authors and laypeople

**The Oxford History of Life Writing: Volume 2. Early Modern** Alan Stewart, 2018-05-04 The Oxford History of Life Writing Volume 2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways While classical and medieval models continued to exercise considerable influence new forms began to challenge them The English Reformation banished the saints lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption The volume doesn't intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography Instead it portrays early modern England as

a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it mean to write a life      **Is There a Home in Cyberspace?** Heike Mónica Greschke, 2012-08-21 How is global togetherness possible How does the availability of the Internet alter migrants everyday lives and senses of belonging This book introduces an alien people inhabiting a specific common virtual space in the World Wide Web while the members of this space most of them ethnic Paraguayans are physically located in many different parts of the world By developing an innovative and uniquely adequate set of research methods the author explores the interrelation of media and migration practices in their own right and sheds light not only on the living conditions of contemporary Paraguayan migrants but also on emerging global forms of living together The concentration on a single case facilitates an in depth understanding of contemporary migration practices cultural meanings of digital media and senses of belonging The book discusses empirical data methods and theoretical concepts in a reflexive writing style allowing readers to follow the research process and to learn from its choices and challenges which are rarely visible in most research reports The reflexive research procedure contributes not only to the understanding of social realities in the light of globalization but also to an advancement of sociological methods and concepts for researching social phenomena in global landscapes and mediatization      *The Clinton Global Initiative. A Role Model for 21st Century Diplomacy?* Sven Marschalek, 2020-04-06 Bachelor Thesis from the year 2013 in the subject Politics Topic International relations grade 1 0 Sheffield Hallam University Faculty of Development and Society language English abstract This paper has taken the discourse on changes in global diplomacy as a foundation for an in depth case study of the Clinton Global Initiative which appeared and proved to be an excellent example for the realization of recent trends in real politics By applying a mixed methodology the organizational structure and membership were investigated as to effectively be able to make statements about the initiative s approach towards the global issue of climate change Via a consecutive comparison to the state centric United Nations Framework Convention on Climate Change strengths and weaknesses of the Clinton Global Initiative as an international organization could be identified and recommendations could be given as to how modern diplomacy could be designed more effectively This research sets out to answer the following questions 1 How does the Clinton Global Initiative address contemporary global issues specifically climate change 2 What lessons can other international organizations such as the UN learn from the Clinton Global Initiative for the practice of diplomacy Recent trends such as the communications revolution and the increasing importance of transnational non state actors have led to increasing levels of global interdependence At the same time global public goods issues such as pollution poverty or health call for collective action at a worldwide scale Both trends are interrelated and have led academics to recognize a development towards a new diplomacy that is characterized by a growing involvement of public and private actors from civil society and the business world by flat hierarchies and inter sectoral partnerships by an increasing impact of individuals and by flexible and solution focused approaches There is no

agreed position as to whether this new diplomacy is to be placed in opposition to more traditional state centric accounts of diplomacy or whether it rather adds to a polycentric world system
