**Business Daily** ,1998-11 Borneo Boys: RAF Helicopter Pilots in Action Roger Annett,2013-02-19 The author Roger Annett experienced first hand the events detailed here Flying with 215 Squadron and co piloting Argosy transport aircraft deep over Malayan jungle terrain from 1963 to 65 he is well placed to provide a colorful account of this dramatic period Following a reunion of RAF Whirlwind veterans of Borneo Annett began work on this record of their collective experience attempting to stir the memories of both war veterans and civilians alike riveted by the drama as it played out by opposing forces attempting to control the island of Borneo The book describes the oppositions antagonisms victories and defeats experienced on the island Borneo itself with its difficult terrain jungles and lack of adequate road networks proved to be one of the biggest challenges from a military perspective and it is brought to life here The story of the Borneo Boys of the title traces a journey from new recruits at boot camp to flying training and on to Borneo itself It was here where a fraternal bond was to be forged to last a lifetime and provide an impetus for this book The process of Theatre familiarization jungle training

nursing Whirlwind 10s over and around the mountainous Malayan jungle is recorded here with first hand authenticity Setting this journey in context Annett fills out the history of the wider conflict in which the boys were embroiled The Far East colonial tensions which bred antagonism and ultimately led to the conflict are detailed as are the cross border raids and riots which bred a fever of revolt Much is written already on the Borneo conflict a lot of it dealing with the politics of the situation This book swoops its focus on the young men who were called upon to fly over such confusion far away from home It is their daily adventures camaraderie and learning trajectory which we are faced with All the excitement of the Aviator s adrenalin ride is translated into eloquent prose strengthened by the kind of confident delivery that only a man involved in such proceedings could achieve     **Jane's All the World's Aircraft** ,2006     **Motor** ,1918     *Old Car Value Guide* ,1977

Wave-Rotor-Enhanced Gas Turbine Engine Demonstrator ,1999 The U S Army Research Laboratory NASA Glenn Research Center and Rolls Royce Allison are working collaboratively to demonstrate the benefits and viability of a wave rotor topped gas turbine engine The self cooled wave rotor is predicted to increase the engine overall pressure ratio and peak temperature by 300% and 25 to 30% respectively providing substantial improvements in engine efficiency and specific power Such performance improvements would significantly reduce engine emissions and the fuel logistics trails of armed forces Progress towards a planned demonstration of a wave rotor topped Rolls Royce Allison model 250 engine has included completion of the preliminary design and layout of the engine the aerodynamic design of the wave rotor component and prediction of its aerodynamic performance characteristics in on and off design operation and during transients and the aerodynamic design of transition ducts between the wave rotor and the high pressure turbine The topping cycle increases the burner entry temperature and poses a design challenge to be met in the development of the demonstrator engine
