**Listening as Spiritual Practice in Early Modern Italy** Andrew

Dell'Antonio,2011-07-21 The early seventeenth century when the first operas were written and technical advances with far reaching consequences such as tonal music began to develop is also notable for another shift the displacement of aristocratic music makers by a new professional class of performers In this book Andrew Dell Antonio looks at a related phenomenon the rise of a cultivated audience whose skill involved listening rather than playing or singing Drawing from contemporaneous discourses and other commentaries on music the visual arts and Church doctrine Dell Antonio links the new ideas about cultivated listening with other intellectual trends of the period humanistic learning contemplative listening or watching as an active spiritual practice and musical mysticism as an ideal promoted by the Church as part of the Catholic Reformation

Painting as Business in Early Seventeenth-century Rome Patrizia Cavazzini,2008 Painting as Business in Early

Seventeenth Century Rome offers a new perspective on the world of painting in Rome at the beginning of the Baroque from both an artistic and a socioeconomic point of view Biased by the accounts of seventeenth century biographers who were often academic painters concerned about elevating the status of their profession art historians have long believed that in Italy and in Rome in particular paintings were largely produced by major artists working on commission for the most important patrons of the time Patrizia Cavazzini s extensive archival research reveals a substantially different situation Cavazzini presents lively and colorful accounts of Roman artists daily lives and apprenticeships and investigates the vast popular art market that served the aesthetic devotional and economic needs of artisans and professionals and of the laboring class Painting as Business reconstructs the complex universe of painters collectors and merchants and irrevocably alters our understanding of the production collecting and merchandising of painting during a key period in Italian art history The Moment of Caravaggio Michael Fried,2023-10-17 A major reevaluation of Caravaggio from one of today s leading art historians This is a groundbreaking examination of one of the most important artists in the Western tradition by one of the leading art historians and critics of the past half century In his first extended consideration of the Italian Baroque painter Michelangelo Merisi da Caravaggio 1573 1610 Michael Fried offers a transformative account of the artist s revolutionary achievement Based on the A W Mellon Lectures in the Fine Arts delivered at the National Gallery of Art The Moment of Caravaggio displays Fried s unique combination of interpretive brilliance historical seriousness and theoretical sophistication providing sustained and unexpected readings of a wide range of major works from the early Boy Bitten by a Lizard to the late Martyrdom of Saint Ursula The result is an electrifying new perspective on a crucial episode in the history of European painting Focusing on the emergence of the full blown gallery picture in Rome during the last decade of the sixteenth century and the first decades of the seventeenth Fried draws forth an expansive argument one that leads to a radically revisionist account of Caravaggio s relation to the self portrait of the role of extreme violence in his art as epitomized by scenes of

decapitation and of the deep structure of his epoch defining realism Fried also gives considerable attention to the art of Caravaggio's great rival Annibale Carracci as well as to the work of Caravaggio's followers including Orazio and Artemisia Gentileschi Bartolomeo Manfredi and Valentin de Boulogne Please note All images in this ebook are presented in black and white and have been reduced in size

**The Neapolitan Lives and Careers of Netherlandish Immigrant Painters (1575-1655)** Marije Osnabrugge, 2025-10-01 The seventeenth century was a time of exceptional mobility for Netherlandish artists This mobility had a profound impact on artistic developments stimulating innovation and creativity in the Netherlands as well as abroad Whereas most artists undertook a relatively short study trip others decided to settle down and shape their life in a new environment This study traces the integration process as artists and as migrants in general of Aert Mytens Louis Finson Abraham Vinck Hendrick De Somer and Matthias Stom in Naples between 1575 and 1655 Departing from the idea that the experience of every migrant is specific to their background and skills The Neapolitan Lives and Careers of Netherlandish Immigrant Painters 1575 1655 examines the challenges each of these five artists faced the choices they made and the opportunities they grasped The dynamics of art and society in Naples the bustling capital of the Spanish viceroyalty forms the context for their lives and careers

The Beholder Robert Williams, 2017-07-05 One of the most significant developments in the study of works of art over the past generation has been a shift in focus from the works themselves to the viewer's experience of them and the relation of that experience both to the works in question and to other aspects of cultural life The ten essays written for this volume address the experience of art in early modern Europe and approach it from a variety of methodological perspectives concerns range from the relation between its perceptual and significative dimensions to the ways in which its discursive formation anticipates but does not exactly correspond to later notions of aesthetic experience The modes of engagement vary from careful empirical studies that explore the complex complementary relationship between works of art and textual evidence of different kinds to ambitious efforts to mobilize the powerful interpretative tools of psychoanalysis and phenomenology This diversity testifies to the vitality of current interest in the experience of beholding and the urgency of the challenge it poses to contemporary art historical practice

**Discourse on Sacred and Profane Images** Gabriele Paleotti, 2012 In the wake of the Counter Reformation Cardinal Gabriele Paleotti the archbishop of Bologna wrote a remarkable treatise on art during a time when the Church feared rampant abuse in the arts Translated into English here for the first time Paleotti's Discourse on Sacred and Profane Images argues that art should address a broad audience and explains the painter's responsibility to his spectators The Discourse is introduced by historian Paolo Prodi who explains how even if the archbishop did not succeed in reforming the arts Paleotti's treatise constituted one last synthesis of art as a reading of creation and salvation history and sacred art as a vehicle of devotion

Art Theory as Visual Epistemology Harald Klinke, 2014-06-26 How can we know What does knowledge mean These were the fundamental questions of epistemology in the 17th century In response to continental rationalism the British empiricist John Locke proposed that the only knowledge humans can have is acquired a posteriori In a discussion of the human mind he argued the source of knowledge is sensual experience mostly vision Since vision and picture making are the realm of art art theory picked up on questions such as are pictures able to represent knowledge about the world How does the production of images itself generate knowledge How does pictorial logic differ from linguistic logic How can artists contribute to a collective search for truth Questions concerning the epistemic potential of art can be found throughout the centuries up until the present day However these are not questions of art alone but of the representational value of images in general Thus the history of art theory can contribute much to recent discussions in Visual Studies and Bildwissenschaften by showing the historic dimension of arguments about what images are or should be What is knowledge is as much a philosophic question as What is an image Visual epistemology is a new and promising research field that is best investigated using an interdisciplinary approach that addresses a range of interconnected areas such as internal and external images and the interplay of producer and perceiver of images This publication outlines this territory by gathering together several approaches to visual epistemology by many distinguished authors

*Redefining Eclecticism in Early Modern Bolognese Painting* Daniel Unger, 2025-10-01 Redefining Eclecticism in Early Modern Bolognese Painting Ideology Practice and Criticism focuses on the unique nature of early modern Bolognese painting that found its expression in stylistic diversity The flourishing of different stylistic approaches in the Mannerist paintings of the previous generation evolved at the turn the seventeenth century in the work of the Bolognese painters into an approach best described as eclecticism characterized by the combination of two or more styles in a single work of art Eclecticism was a major innovation and major contribution to the history of art But it then also became a critical term that suffered much negative press The book therefore also traces the role of eclecticism as a concept in the evolution of criticism and scholarship about the Bolognese school of painting over 250 years showing how the dramatically vacillating attitudes towards this concept shaped the historical view of the Bolognese painters ultimately having a tremendous dampening impact on our understanding of seventeenth century art

**The Rise of the Image** Thomas Frangenberg, 2017-07-05 The Rise of the Image reveals how illustrations have come to play a primary part in books on art and architecture Italian Renaissance art is the main focus for this anthology of essays which analyse key episodes in the history of illustration from the sixteenth to the twentieth century The authors raise new issues about the imagery in books on the visual arts by Leonardo da Vinci Giorgio Vasari Sebastiano Serlio Andrea Palladio Girolamo Tetti and Andrea Pozzo The concluding essays evaluate the roles of reproductive media including photography in Victorian and twentieth century art books Throughout images in books are considered as vehicles for ideas rather than as transparent passive visual forms

dependent on their accompanying texts Thus The Rise of the Image enriches our understanding of the role of prints in books on art [Stanford University Museum of Art Journal](#) Stanford University. Museum of Art,1998 **Guercino? Paintings and His Patrons?Politics in Early Modern Italy** DanielM. Unger,2017-07-05 Guercino s Paintings and His Patrons Politics in Early Modern Italy examines how the seventeenth century Italian painter Giovanni Francesco Barbieri better known as Il Guercino instilled the political ideas of his patrons into his paintings As it focuses on eight works showing religious scenes and scenes taken from Roman history this volume bridges the gap between social and cultural history and the history of art untangling the threads of art politics and religion during the time of the Thirty Years War A prolific painter Guercino enjoyed the patronage of such luminaries as Pope Gregory XV Cardinals Serra Ludovisi Spada and Magalotti and the French secretary of state La Vrilli While scholarly research has been devoted to Guercino s oeuvre this book is the first to place his works squarely in the context of the political and social circumstances of seventeenth century Italy stressing the points of view and agendas of his powerful patrons What were once meanings only apparent to the educated elite or those familiar with the political affairs of the time are now scrutinized and clarified for an audience far from the struggles of early modern Europe
