Our Lady of Everyday Life María Del Socorro Castañeda-Liles, 2018-03-01 For Mexican Catholic women in the United States devotion to Our Lady of Guadalupe La Virgen is a necessary aspect of their cultural identity In this masterful ethnography Mar a Del Socorro Casta eda Liles considers three generations of Mexican origin women between the ages of 18 and 82 She examines the Catholic beliefs the women inherited from their mothers and how these beliefs become the template from which they first learn to see themselves as people of faith She also offers a comprehensive analysis of how Catholicism creates a culture in which Mexican origin women learn how to be good girls in a manner that reduces their agency to rubble Through the nexus of faith and lived experience these women develop a type of Mexican Catholic imagination that helps them challenge the sanctification of shame guilt and aguante endurance at all cost This imagination allows these women to transgress strict notions of what a good Catholic woman should be while retaining life giving aspects of Catholicism This transgression is most visible in their relationship to La Virgen which is a fluid and deeply engaged process of self awareness in everyday life

Hackel, 2018-02-23 In September 2015 Jun ipero Serra was canonized by Pope Francis in Washington DC against the protest of many Californian Native Americans who criticized his brutal treatment of their ancestors and destruction of their culture Like most complex historical figures Jun ipero Serra has been interpreted in countless ways often contextualized mainly in California This book situates Serra in the context of the three major places that he lived learned and proselytized Mallorca Mexico and Alta California Scholars from all three countries contribute to a rare glimpse into the life of the saint by considering his use of music and art his representation in popular culture his education ideology and Franciscan influence the plans and building of the missions and his relation to native peoples Provided by publisher Complexity in Education Cok Bakker, Nicolina Montesano Montessori, 2017-01-12 This volume the result of four years of work performed by the combined research groups of Utrecht University Faculty of Humanities and the HU Utrecht University of Applied Sciences Faculty of Education focuses on the central theme of Normative Professionalization Drawing on a wide variety of scholars including Hannah Arendt Gert Biesta Harry Kunneman Donald Schön and Chris Argyris and engaging with professionalism ethics virtue and morality this book builds the argument that learning to deal with complexity supports not only education but the personal development of teachers and the improvement of society and democracy as well This volume presents research on a broad range of topics such as worldview education co teaching moral authorship traditional reform perspectives on education the discourse on citizenship teacher education and the question how to link religion and education The research chapters explain the theoretical lenses and methodological approaches which have been employed to get a grip on complexity The results have been interpreted in light of the concepts of *horror complexitatis* *amor complexitatis* and *dolor complexitatis* Guided by detailed research accounts of worldview descriptions provided by students and teachers this framework has been enriched with the notion of a *passio complexitatis* In the concluding chapters the book advocates for an improved balance between the normative and instrumental professionalization of teachers in order to create space for the improvement of pedagogical relations and processes and to reintroduce the moral dimensions of education The claim throughout this book is that allowing for complexity in education even going so far as to embrace it is vital for the improvement of education and a prerequisite for more authentic relationships on the micro level and the maintenance of a

Correspondence on Christology and Grace Saint Fulgentius (Bishop of Ruspa),2013 St Fulgentius of Ruspe was perhaps the most brilliant North African theologian in the era after St Augustine s death He wrote widely on theological and moral issues Between the years AD 519 and 523 Fulgentius engaged in correspondence with a group of Latin speaking monks from Scythia and that correspondence is translated into English almost all of it for the first time in this volume The correspondence is significant because it stands at the intersection of two great theological discussions the primarily Eastern Christological controversies between the Fourth Ecumenical Council in 451 and the Fifth in 553 and the largely Western Semi Pelagian controversy which ran from 427 to the Second Synod of Orange in 529 Contemporary Western scholars normally treat these controversies over Christ and grace separately but there were noteworthy points of contact between the two discussions and Fulgentius and the Scythian monks were the ones who drew the connections between Christology and grace most strongly These connections suggest that we today may do well to treat Christology and grace more as two sides of the same coin than as separate theological issues Both sets of issues deal fundamentally with the relation between God and humanity Christological questions ask how the divine and human are related in the person of the Savior and grace related questions ask how the divine and human are linked in the conversion Christian life and final salvation of each Christian Thus Fulgentius s correspondence with the Scythian monks can do more than simply aid understanding of sixth century Byzantine Roman

theology It can also contribute to our contemporary thinking on the relation between two of the Christian faith's most central doctrines

Shadows of Doubt Stefania Tutino, 2013-12-23 Named a Book of the Year by History Today In a compelling examination of the hermeneutical and epistemological anxieties gripping both the early modern and our current world Stefania Tutino shows that post Reformation Catholicism did not simply usher in modernity but postmodernity as well This deft study provides new insight into and a fresh perspective on the context of the Protestant Reformation and the Catholic response to it *Shadows of Doubt* provides a collection of case studies centered on the relationship between language the truth of men and the Truth of theology Most of these case studies illuminate little known figures in the history of early modern Catholicism While the militant aspects of post Tridentine Catholicism can be appreciated by studying figures such as Robert Bellarmine or Cesare Baronio who were the solid pillars of the intellectual and theological structure of the Church of Rome an understanding of the more fragile and shadowy aspects of early modernity requires an exploration of the demimonde of post Reformation Catholicism Tutino examines the thinkers whom few scholars mention and fewer read demonstrating that post Reformation Catholicism was not simply a world of solid certainties to be opposed to the Protestant falsehoods but also a world in which the stable Truth of theology existed alongside and contributed to a number of far less stable truths concerning the world of men Post Reformation Catholic culture was not only concerned with articulating and affirming absolute truths but also with exploring and negotiating the complex links between certainty and uncertainty By bringing to light this fascinating and hitherto largely unexamined side of post Tridentine Catholicism Tutino reveals that post Reformation Catholic culture was a vibrant laboratory for many of the issues that we face today it was a world of fractures and fractured truths which we with a heightened sensitivity to discrepancies and discontinuities are now well suited to understand

Thomas Aquinas Frederick Christian Bauerschmidt, 2013-08-29 Thomas Aquinas is widely recognized as one of history's most significant Christian theologians and one of the most powerful philosophical minds of the western tradition But what has often not been sufficiently attended to is the fact that he carried out his theological and philosophical labours as a part of his vocation as a Dominican friar dedicated to a life of preaching and the care of souls Fererick Christian Bauerschmidt places Aquinas's thought within the context of that vocation and argues that his views on issues of God creation Christology soteriology and the Christian life are both shaped by and in service to the distinctive goals of the Dominicans What Aquinas says concerning both matters of faith and matters of reason

as well as his understanding of the relationship between the two are illuminated by the particular Dominican call to serve God through handing on to others through preaching and teaching the fruits of one's own theological reflection From San Juan to Paris and Back Edward J.
