Being an occupational therapy assistant has several significant advantages. Primarily, it is a valuable opportunity to realize one's desire to help people. In this regard, this profession allows one to directly solve various problems of patients, thus making a considerable contribution to society as a whole. In addition, the assistant makes a valuable contribution to the functioning of the healthcare system by performing the actions necessary for the recovery, development, and improvement of the patient's health. Since occupational therapy directly affects a person's quality of life, it requires a clear understanding of the job and an appropriate level of interest and desire to help people.
