simply because of their intrinsic merit but because of the work of mediators who influence the whole trajectory of a playwright's or a theatre company's career. Critics and academic writers are primarily considered the makers of reputations but funding organizations and various media agents as well as artistic directors, producers and directors also pursue separate agendas in shaping the reputations of theatrical works. In *The Making of Theatrical Reputations* Yael Zarhy-Levo demonstrates the processes through which these mediatory practices by key authority figures situate theatrical companies and playwrights within cultural and historical memory. To reveal how these authorizing powers that promote theatrical events, companies and playwrights, Zarhy-Levo presents four detailed case studies that reflect various angles of the modern London theatre. In the case of the English Stage Company's production of John Osborne's *Look Back in Anger*, she centers on a specific event. She then focuses on the trajectory of a single company, the Theatre Workshop, particularly through its first decade at the Theatre Royal, Stratford East, London. Next, she explores the career of the dramatist John Arden, especially its first ten years, in part drawing upon an interview with Arden and his wife, actress and playwright Margaretta D'Arcy, before turning to her fourth study, the playwright Harold Pinter's shifting reputation throughout the different phases of his career. Zarhy-Levo's accounts of these theatrical events, companies and playwrights through the prism of mediation bring fresh insights to these landmark productions and their creators.

This important contribution to the successful textbook series *New Approaches to European History* explores the comprehensive impact of the First World War on Imperial Germany. It examines military aspects of the conflict as well as the diplomacy, government, politics and industrial mobilization of wartime Germany. Unlike other existing surveys, however, Roger Chickering also offers a rich portrait of life on the home front: the pervasive effects of total war on wealthy and poor men and women, young and old, farmers and city dwellers, Protestants, Catholics and Jews. This excellent, well-illustrated study of the military, political and socio-economic effects of the First World War is essential reading for all students of German and European history as well as for those interested in the history of war and society.
