Foreword

This manual is designed primarily for use by Polaris personal watercraft service technicians in a properly equipped shop. Persons using this manual should have a sound knowledge of mechanical theory, tool use, and shop procedures in order to perform the work safely and correctly. The technician should read the text and be familiar with service procedures before starting the work. Certain procedures require the use of special tools. Use only the proper tools, as specified. A table of contents is placed at the beginning of each chapter to aid the user in locating specific areas of information. The alphabetic index at the end of the manual will help the user find specific information quickly.
