In this book, Gayle Gregory shows you how to facilitate better and deeper learning. Packed with practical strategies that teachers can use every day to increase student achievement, you will also discover what educational neuroscience says about nurturing a growth mindset and creating classrooms that support and encourage students to take risks and fail forward. Learn how to Foster student dialogue and thinking, Orchestrate productive, reflective, flexible student groups, Develop respectful learning relationships between and among students and teachers. Teacher competencies and clarity related to student goals and success criteria with quality feedback are essential for student success. This resource will enrich learning environments for students and increase the chance of success for all. In going from teachers as fount of knowledge to teacher as facilitator, the field has overcorrected. Gayle Gregory corrects all that with a comprehensive and deep portrayal of the need for teachers to be activators of learning in partnership with students. Based on equal measure of research and practice, Gregory gives us a compelling set of ideas and tools to maximize student learning and engagement. Read it and hit the ground running.
