

Example Of A Profile Essay

Crafting an essay on the subject of "Example of a Profile Essay" can be both challenging and rewarding. The difficulty lies in the need for a delicate balance between vivid storytelling and objective analysis. Unlike other types of essays, a profile essay demands a keen eye for detail and the ability to capture the essence of a person or subject in a compelling narrative.

Firstly, there's the challenge of conducting thorough research. It's not merely about gathering facts and figures but delving into the individual's or subject's background, experiences, and perspectives. This requires time and effort to ensure accuracy and depth in the portrayal.

Once the research is complete, the next hurdle is transforming raw information into a coherent and engaging narrative. Crafting a compelling story involves choosing the right anecdotes, quotes, and descriptions to paint a vivid picture. It's about creating a seamless flow that keeps the reader captivated from the introduction to the conclusion.

Moreover, maintaining objectivity can be tricky. While the essay should offer insights into the subject, it's crucial to avoid bias and present a fair and balanced view. Striking this balance requires careful language choices and a thoughtful approach to the portrayal of the individual or subject.

In addition, the challenge extends to incorporating a thematic thread that ties the various aspects together. Whether it's a common trait, a defining moment, or a unique perspective, finding the cohesive element that unifies the narrative adds another layer of complexity.

Despite these challenges, writing a profile essay can be a fulfilling experience. It provides an opportunity to explore the intricacies of a person or subject, shedding light on aspects that may go unnoticed. Successfully navigating these difficulties results in an essay that not only informs but also resonates emotionally with the reader.

Profile Pieces Sue Joseph,Richard Lance Keeble,2015-10-14 This book examines the history theory and journalistic practice of profile writing Profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject exemplify the changing nature of journalism itself While the subject often through the medium of their press representative struggles to retain control of the interview space the

journalist seeks to subvert it This interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism However chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated individuals The volume looks at the profile s historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma *Physiognomy in Profile* Melissa Percival, Graeme Tytler, 2005 *Physiognomy in Profile* affirms and assesses Lavater s contribution to European culture in the two hundred years after his death It examines how Lavater s vision of physiognomy as a viable method of interpreting the modern world has been repeatedly affirmed and challenged Previous monographs on Lavater have tended to focus on one particular theme discipline or historical period but this study deliberately adopts a cross disciplinary approach and covers a broad historical time frame Some widely different material is juxtaposed painting photography fiction journalism medical texts in order to explore recurring issues in physiognomical thought Essays are arranged in chronological order so that the reader can gain a sense of the shared preoccupations of Lavater s contemporaries and successors But the book may also be read thematically **BOOK JACKET**
