Mark has been written about Guy McCubbin's immense influence on California history, and on history beyond California's borders—and rightly so. But the subject of this book, the man who gave and gave to California, has been Guy McCubbin, above all others. Guy was well prepared to influence his influence during the inception of new history in California in the 1940s and 1950s. While others have given and given and had major influence on the situation, Guy has devoted himself to the study and pursuit of these birds well beyond all others. Guy was the star of the founding members of the California Bird Society (CBS), and he has remained a driving force of the Committee and the California Bird Society, past and present, steadily devoted his work to Guy, and with him many more men and birds to come.
