Back

Remote

NOTE: If you want to watch 3D video, make sure that your TV or projector supports the same HDMI 3D video format as your source. A 3D image cannot be delivered to a TV or projector that does not support 3D video formats. You also need to use HDMI cables that are compatible with 3D video, such as Rocketfish high-speed HDMI cables.

Setting up your switcher

- 1 Using high-speed HDMI cables, such as Rocketfish brand HDMI cables, connect one end of the HDMI cable to the HDMI port on each source device, then connect the other end of each cable to one of the HDMI INPUTS on your switcher.
- 2 Connect a high-speed HDMI cable from an available input on your HDTV (or projector) to the HDMI OUTPUT of your switcher.
- 3 Connect the AC power adapter to the DC power connector on your switcher, then plug the adapter into a power outlet.

Using your switcher

- 1 Press the **POWER** button on the remote control or press and hold the **POWER/SELECT** button on your switcher for at least two seconds. The power LED lights red.
- 2 Turn on your TV or projector, then switch to the HDMI input that your switcher is connected to. If you are uncertain how to do this, see the documentation that came with your TV or projector.
- 3 Turn on the HDMI device that you want to view. The auto-switching feature of your switcher should automatically switch to that input, and the corresponding LED lights green. However, some HDMI source devices are not compatible with auto-switching technology. If needed, press the number on the remote control you want to switch to, or repeatedly press the **POWER/SELECT** button on your switcher to toggle through the HDMI inputs until the correct input is selected and the corresponding LED indicator lights green.

Rocketfish Rf Rbwhp0user Guide
