by the specific socio cultural concerns of the particular historical context These include the changing meanings of work in a neoliberal economy as well as culturally specific dreams of finding freedom and self actualization in Canada s vast nature Drawing on nearly two years of fieldwork in Banff and a decade of conversations with the guides Satsuka argues that knowing nature is an unending process of cultural translation full of tensions contradictions and frictions Ultimately the translation of nature concerns what counts as human what kind of society is envisioned and who is included and excluded in the society as a legitimate subject
