**General Technical Report PSW.**, 1978 **Urban-Rural Interactions** Eveline van Leeuwen, 2010-03-10 Modern Europe has rural roots Even today as much as 90 per cent of Europe EU25 consists of rural areas in which half of the population lives While different rural areas often face different challenges the shift from agricultural production towards a

multifunctional landscape and the increasing value assigned to environmental values affect all rural areas. The ambition to develop a more diversified rural economy as well as the bottom up approach and local focus of many rural policies require a clear knowledge of the current socio economic function of towns and town hinterland linkages. Therefore the aim of this study is to contribute to the understanding of the current function of towns in Europe in general and in the Netherlands more specifically. By using both micro and macro approaches the multifaceted relationships between town hinterland and the rural economy are explored at different spatial levels and for different actors in particular for households, farms and firms.

**Euro-Par 2000 Parallel Processing** Arndt Bode, Thomas Ludwig, Wolfgang Karl, Roland Wismüller, 2003-06-26 Euro Par the European Conference on Parallel Computing is an international conference series dedicated to the promotion and advancement of all aspects of parallel computing. The major themes can be divided into the broad categories of hardware, software, algorithms and applications for parallel computing. The objective of Euro Par is to provide a forum within which to promote the development of parallel computing both as an industrial technique and an academic discipline extending the frontier of both the state of the art and the state of the practice. This is particularly important at a time when parallel computing is undergoing strong and sustained development and experiencing real industrial take up. The main audience for and participants of Euro Par are seen as researchers in academic departments, government laboratories and industrial organisations. Euro Par's objective is to become the primary choice of such professionals for the presentation of new results in their specific areas. Euro Par is also interested in applications that demonstrate the effectiveness of the main Euro Par themes. Euro Par now has its own Internet domain with a permanent Web site where the history of the conference series is described <http://www.euro-par.org>. The Euro Par conference series is sponsored by the Association of Computer Machinery and the International Federation of Information Processing.
