Communication Technology Update and Fundamentals August E. Grant, Jennifer H. Meadows, 2016-11-03 Communication Technology Update and Fundamentals has set the standard as the single best resource for students and professionals looking to brush up on how communication technologies have developed grown and converged as well as what

s in store for the future The 15th edition is completely updated reflecting the changes that have swept the communication industries The first five chapters offer the communication technology fundamentals including the ecosystem the history and structure then delves into each of about two dozen technologies including mass media computers consumer electronics and networking technologies Each chapter is written by experts who provide snapshots of the state of each individual field Together these updates provide a broad overview of these industries as well as the role communication technologies play in our everyday lives In addition to substantial updates to each chapter the 15th edition includes First ever chapters on Big Data and the Internet of Things Updated user data in every chapter Projections of what each technology will become by 2031 Suggestions on how to get a job working with the technologies discussed The companion website www.tfi.com.ctu offers updated information on the technologies covered in this text as well as links to other resources

ICT Tools and Applications for Accessible Tourism Eusébio, Celeste, Teixeira, Leonor, Carneiro, Maria João, 2021-02-26 The contribution of tourism to create an inclusive society requires the adoption of new approaches and strategies that promote the accessibility of tourism destinations allowing all people regardless of their health condition to enjoy tourism experiences To accomplish this objective it is of utmost relevance to promote the active involvement of all stakeholders of the tourism system demand supply government entities and educational institutions in the creation of accessible and adapted tourism products However the scarce literature in this area suggests that the people working in the tourism industry are not usually aware of several needs and travel constraints of persons with disabilities and that the information delivered by traditional information sources to this market is frequently inadequate inaccurate or incomplete Therefore the information and communication technologies ICTs may have a crucial role to overcome the several travel constraints that these people face to plan and carry out a tourism trip as well as to enable supply agents to develop accessible tourism products Despite this although in recent years research regarding accessible tourism has increased the number of studies on the contributions of ICTs for the development of accessible research is scarce ICT Tools and Applications for Accessible Tourism provides theoretical and practical contributions for accessible tourism in the growing tourism market for social responsibility issues and as an excellent business opportunity Chapters within this critical reference source cover the academic discussion of global accessible tourism increased knowledge of disabilities ICTs that can be used and emerging technologies This book is intended for all practitioners in the tourism industry along with IT specialists government officials policymakers marketers researchers academicians and students who are interested in the latest tools technologies and research on accessible tourism

The Report: Indonesia 2014 Oxford Business Group, 2014-05-21 On the cusp of 2014 national elections and the 2015 integration of the ASEAN Economic Community Indonesia is poised to continue its rapid economic expansion While the country's natural resources are still plentiful by channelling foreign direct investment into the right areas the government is ensuring that true potential in terms of value and manufacturing is achieved By inviting targeted investment and adapting existing regulatory

frameworks the government has taken significant steps to facilitate foreign investment and the development of value added industries Indonesia is a country renowned for its abundance of natural resources which include oil gas coal nickel tin copper gold and silver While slightly down on the previous year the country s total oil production for 2012 stood at 861 000 barrels per day accounting for approximately 1 2% of the world s oil production Indonesia remains the world s largest exporter of thermal coal exporting a total of 304m tonnes in 2012 to countries such as Japan South Korea China and India The country continues to be the dominant nation in South east Asia politically and economically and its participation within ASEAN in particular will likely determine the shape of regional integration with the introduction of the ASEAN Economic Community AEC in 2015 looming as the bloc s next major milestone

HCI Beyond the GUI Philip Kortum, 2008-06-13 As technology expands and evolves one dimensional graphical user interface GUI design becomes increasingly limiting and simplistic Designers must meet the challenge of developing new and creative interfaces that adapt to meet human needs and technological trends HCI Beyond the GUI provides designers with this know how by exploring new ways to reach users that involve all of the human senses Dr Kortum gathers contributions from leading human factors designers to present a single reference for professionals researchers and students Explores the human factors involved in the design and implementation of the nontraditional interfaces detailing design strategies testing methodologies and implementation techniques Provides an invaluable resource for practitioners who design interfaces for children gamers and users with accessibility needs Offers extensive case studies examples and design guidelines
