The Baron's Cloak Willard Sunderland, 2014-05-08 Baron Roman Fedorovich von Ungern Sternberg 1885 1921 was a Baltic German aristocrat and tsarist military officer who fought against the Bolsheviks in Eastern Siberia during the Russian Civil War From there he established himself as the de facto warlord of Outer Mongolia the base for a fantastical plan to restore the Russian and Chinese empires which then ended with his capture and execution by the Red Army as the war drew to a close In The Baron s Cloak Willard Sunderland tells the epic story of the Russian Empire s final decades through the arc of the Baron s life which spanned the vast reaches of Eurasia Tracking Ungern s movements he transits through the Empire s multinational borderlands where the country bumped up against three other doomed empires the Habsburg Ottoman and Qing and where the violence unleashed by war revolution and imperial collapse was particularly vicious In compulsively readable prose that draws on wide ranging research in multiple languages Sunderland re creates Ungern s far flung life and uses it to tell a compelling and original tale of imperial success and failure in a momentous time Sunderland visited the many sites that shaped Ungern s experience from Austria and Estonia to Mongolia and China and these travels help give the book

its arresting geographical feel In the early chapters where direct evidence of Ungern's activities is sparse he evokes peoples and places as Ungern would have experienced them carefully tracing the accumulation of influences that ultimately came together to propel the better documented more notorious phase of his career Recurring throughout Sunderland's magisterial account is a specific artifact the Baron's cloak an essential part of the cross cultural uniform Ungern chose for himself by the time of his Mongolian campaign an orangey gold Mongolian kaftan embroidered in the Khalkha fashion yet outfitted with tsarist style epaulettes on the shoulders Like his cloak Ungern was an imperial product He lived across the Russian Empire combined its contrasting cultures fought its wars and was molded by its greatest institutions and most volatile frontiers By the time of his trial and execution mere months before the decree that created the USSR he had become a profoundly contradictory figure reflecting both the empire's potential as a multinational society and its ultimately irresolvable limitations

Charles Whitworth Janet M. Hartley, 2017-07-05 In 1700 the armies of the Russian Tsar Peter the Great and Charles XII of Sweden met at Narva to fight the first battle of what was to be known as the Great Northern War Although this first engagement was to result in a humiliating defeat for Peter it marked the start of a struggle that twenty years later would see Russia emerge as a major power and radically alter the balance of power in Europe This work examines the changes in the balance of power in Europe in the early eighteenth century as a result of the Great Northern War and the War of the Spanish Succession through the writings and career of Charles Whitworth the first British Ambassador to Russia and Minister in The Hague Berlin Ratisbon and Cambrai Whitworth was an acute witty and indefatigable writer His long and detailed dispatches and reports comment on Russian Prussian Austrian and Dutch domestic and foreign policy on trading and commercial matters on leading personalities and events and on the diplomacy of the Great Northern War and the War of Spanish Succession He was in Russia from 1705 to 1712 and witnessed the growing military naval and commercial power of the state and was acutely aware of the potential threat of Russia to British interests The period of Whitworth's diplomatic career from 1702-1725 witnessed a dramatic shift in the balance of power in the North and the nature and timing of Whitworth's postings made him uniquely qualified to chart and analyse this development Drawing on a wide variety of manuscript sources Dr Hartley has produced a compelling account both of Whitworth and the momentous events taking place in Europe at the beginning of the eighteenth century
