

NFS2-640(E)

Intelligent Addressable Fire Alarm System

Intelligent Fire Alarm Control Panels

General

The NFS2-640 Intelligent Fire Alarm Control Panel is part of the NOTIFIER® Series of Fire Alarm Controls from NOTIFIER.

In stand-alone or network configurations, NOTIFIER Series products meet virtually every application requirement.

The NFS2-640's modular design makes system planning easier. The panel can be configured with just a few devices for small building applications, or networked with many devices to protect a large campus or a high-rise office block. Simply add additional peripheral equipment to suit the application.

A host of other options are available, including single- or multi-channel voice; firefighter's telephone; LED, LCD, or PC-based graphic annunciations; networking; advanced detection products for challenging environments; wireless fire protection; and many additional options.

NOTE: Unless called out with a version-specific "E" at the end of the part number, "NFS2-640" refers to models NFS2-640 and NFS2-640E; similarly, "CPU2-640" refers to models CPU2-640 and CPU2-640E.

Features

- Certified for seismic applications when used with the appropriate seismic mounting kit.
