perspectives on the evolution of the trade development nexus in the European Union against dramatic changes in the international context Without disregarding them it seeks to go beyond the controversial and extensively researched Economic Partnership Agreements EPAs In particular it focuses on the reform of the Generalised System of Preferences the negotiation of various Preferential Trade Agreements the application of trade sanctions the allegedly ambitious agendas on decent work Aid for Trade and aid untying and the implications of the changing balance of power in global economic relations Taking diverse approaches and at times reaching different conclusions contributors directly or indirectly address one or more of the three general themes of the book differentiation coherence and norms This book was published as a special issue of Contemporary Politics *Negotiating Public Services in the Congo* Tom De Herdt, Kristof Titeca, 2019-06-15

The Democratic Republic of Congo DRC has been widely derided as a failed state unable to meet the basic needs of its citizens But while state infrastructure continues to decay many essential services continue to be provided at the local level often through grassroots initiatives So while for example state funding for education is almost non-existent average school enrolment remains well above average for Sub-Saharan Africa This book addresses this paradox bringing together key scholars working on public services in the DRC to elucidate the evolving nature of governance in developing countries Its contributions encompass a wide range of public services including education justice transport and health Taking stock of what functions and why it contributes to the debate on public services in the context of real or hybrid governance beyond the state does the state still have a function or is it no longer useful and relevant Crucially how does international aid help or complicate this picture Rich in empirical detail the contributors provide a valuable work for students and scholars interested in the role played by non-state actors in organizing statehood a role too often neglected in debates on post-conflict reconstruction

Moving Health Sovereignty in Africa Andrew F. Cooper, Hany Besada, 2016-04-15 Today's era of intense globalization has unleashed dynamic movements of people pathogens and pests that overwhelm the static territorial jurisdictions on which the governance provided by sovereign states and their formal intergovernmental institutions is based This world of movement calls for new ideas and institutions to govern people's health above all in Africa where the movements and health challenges are the most acute This book insightfully explores these challenges in ways that put the perspectives of Africans themselves at centre stage It begins with the long central and still compelling African health challenge of combating the pandemic of HIV AIDS It then examines the global governance responses by the major multilateral organizations of the World Bank and the World Trade Organization and the newer

informal flexible democratically oriented ones of the Group of Eight It also addresses the compounding health challenge created by climate change to assess both its intensifying impact on Africa and how all international institutions have largely failed to link climate and health in their governance response It concludes with several recommendations about the innovative ideas and institutions that offer a way to closing the great global governance gaps and thus improving Africans health and that of citizens beyond Competition Law Richard Whish,David Bailey,2015 Definitive and clear authoritative and comprehensive the stand alone resource on competition law for students and practitioners written by the leading academics in the field This eighth edition addresses key developments including the Enterprise and Regulatory Reform Act 2013 with an increased emphasis on intellectual property The Kurdish Question Revisited Gareth Stansfield,Mohammed Shareef,2017-08-15 The Kurds once marginal in the study of the Middle East and secondary in its international relations have moved to centre stage in recent years The contributors to The Kurdish Question Revisited offer insights into how this once seemingly intractable immutable phenomenon is being transformed amid the new political realities of the Middle East
