India Infrastructure Report 2012 Idfc Foundation,2016-04-08 Today India s education sector remains a victim of poor policies restrictive regulations and orthodoxy Despite being enrolled in schools children are not learning adequately Increasingly parents are seeking alternatives through private inputs in school and tuition Students are dropping out from secondary school in spite of high financial returns of secondary education and those who do complete it have inferior conceptual knowledge Higher education is over regulated and under governed keeping away serious private providers and reputed global institutes Graduates from high schools colleges and universities are not readily employable and few are willing to pay for skill development Ironically the Right to Education Act if strictly enforced will result in closure of thousands of non state schools and millions of poor children will be left without access to education Eleventh in the series India Infrastructure Report 2012 discusses challenges in the education sector elementary secondary higher and vocational and explores strategies for constructive change and opportunities for the private sector It suggests that immediate steps are required to reform the sector to reap the benefits from India s demographic dividend due to a rise in the working age population Result of a collective effort led by the IDFC Foundation this Report brings together a range of perspectives from

Lagadec,2012-05-16 This book offers an overview of the interface between European integration transatlantic relations and the rise of the rest in the early 21st century The collapse of the Soviet bloc opened up an era in which the drivers and perceived benefits of the US alliance among European countries have become more variegated and shifting The proposition that the US remains at once an indispensable and intolerable nation in Europe is a key concept in the alliance as the US remains inextricably tied to the continent through economic military and cultural links This work examines this complex subject area from many angles including an analysis of the historical and cultural contexts of America s relations with Europe as well as a discussion of the politics of transatlantic affairs which utilises evidence gleaned from a series of case studies In the concluding chapters the author assesses the likelihood that the West can entrench its global dominance in the realms of soft and hard power and by effecting a controlled reform that will see multilateral structures open up to emerging powers This book will be of great interest to students of European Politics EU integration transatlantic relations US foreign policy diplomacy International Security and IR in general **MPPSC Prelims Solved Previous Papers - GS Paper-1 & CSAT**

Villholth, Shilp Verma, 2023-05-08 This book provides a comprehensive analysis of the benefits and challenges of intensifying groundwater irrigation in Sub Saharan Africa SSA for improving smallholder agrarian livelihoods Only about 3% of the groundwater resources of Sub Saharan Africa are used for irrigated agriculture despite the subcontinent s relative abundance of groundwater The majority of the region s smallholders are highly dependent on seasonal dryland cropping making them extremely vulnerable to uncertain weather patterns and droughts Improved irrigation capabilities through sustainable groundwater development could unleash smallholder farming and make it a major

driver of economic growth poverty reduction climate resilience and improved food security So why is groundwater so underused Tapping into groundwater requires a major shift in farming practices and it has its own challenges and requirements smallholder access to land and finance for irrigation infrastructure and equipment gendered and equitable adoption options This whole list is framed in terms of what the smallholder farmers need Hence this should also be put in this context supply chains energy access resource availability and institutional support The chapters in this book present a picture that is not only heterogeneous across the region but also hold some common denominators They serve to enrich the discourse and help better understand the barriers along the pathways toward the sustainable and transformative adoption of groundwater irrigation The scientific information provided herein would be of interest to researchers practitioners decision makers and planners with interest in the region This book was originally published as a Special Issue of Water International journal
