

4.5 Comment on the liquidity position of the company. Quote THREE relevant financial indicators (actual figures/ratios/percentages) and their trends.

Any THREE valid financial indicators:

Name of financial indicator	✓	✓	✓
Figure and trend	✓	✓	✓

- Current ratio: 3,6 : 1 → 1,6 : 1 / decreased to 1,6 : 1
- Acid test ratio: 3,1 : 1 → 1,2 : 1 / decreased to 1,2 : 1
- Stock turnover rate: 5,1 → 6,8 times p.a / increased to 6,8 times
- Debtors' collection period: 35 → 40 days / increased to 40 days

General comment: For 3 marks (need only mention 3 indicators):

The liquidity has generally improved. The current ratio and acid-test ratio were too high in 2013. They are now much more efficient in 2014. The stock is now being sold more quickly which will generate greater profit. However the debtors are paying slightly more slowly – this trend must be rectified next year.

One valid point per indicator **OR** 3 marks for overall comment:
Excellent answer = 3 marks; Good = 2; Poor = 1; Incorrect = 0
Increases/decreases are not a comment – these are trends
Comment would be on improvement or not / efficiency

Expected responses for 1 mark each:

- The current ratio improved / was possibly too high in 2013 / cash was too high / current assets do not earn any return / they may be more efficient in 2014.
- The acid test ratio improved / is more efficient in 2014 / cash is lower
- The stock turnover rate has improved / stock increased but is being sold more quickly / assists liquidity and is appropriate for a supermarket.
- The debtors are paying more slowly / this trend must be rectified / normal credit terms 30 days.

Pozen, Suresh Nallareddy, Shivaram

Rajgopal, 2017-05-16 Beginning in 2007 UK public companies were required to issue quarterly rather than semiannual financial reports But the UK removed this quarterly reporting requirement in 2014 We studied the effects of these regulatory changes on UK public companies and found that the frequency of financial reports had no material impact on levels of corporate investment However mandatory quarterly reporting was associated with an increase in analyst coverage and an improvement in the accuracy of analyst earnings forecasts **Congressional Record** United States. Awakening to China's Rise Hugo Meijer, 2022-08-01 *Awakening to China's Rise* provides the most comprehensive analysis to date of how Europe's major powers have responded to the re-emergence of China as a great power in world politics since the end of the Cold War. To do so it puts forward a unique cross-regional comparison of how the major European powers France, Germany and the United Kingdom have confronted Chinese assertiveness both in the Asia Pacific and in Europe. Firstly it analyses their response to China's increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region. Secondly it delineates how they have confronted China's inroads into Europe looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures, dual-use technologies and in the digital domain including Huawei's 5G networks. A longstanding assumption in the IR literature has been that European foreign policies toward the People's Republic of China have been driven by a naïve and self-interested focus on the economic opportunities presented by such a vast market overlooking security considerations. This book challenges such common belief through a detailed examination of the policies of France, Germany and the United Kingdom from 1989 to the present. Its central argument is that whereas this assessment aptly characterized the first two post-Cold War decades, Beijing's growing assertiveness after 2009 caused the three major European powers to awaken to China's rise. In the 2010s, heightened threat perceptions of China coupled with increasingly competitive bilateral economic relations with the PRC have gradually and cumulatively caused the hardening of their policy goals which in turn translated into the formulation of new policy instruments to confront such a challenge. To substantiate this argument, the book relies on a large body of previously undisclosed primary sources including 223 interviews conducted with senior officials in Europe, Berlin, Brussels, London, Paris, in the United States, Washington DC and in Asia, Beijing, Shanghai, New Delhi, Seoul, declassified archival documents from France, the UK and Germany, leaked US diplomatic cables and new data on European naval deployments.

International Corporate Reporting Pauline Weetman, Ioannis Tsalavoutas, Paul Gordon, 2020-02-19 This textbook provides a comprehensive overview of international corporate reporting which enhances students' understanding of diversity and convergence in the field. The authors discuss the institutional and cultural context in which international corporate reporting has developed over the years as well as the global reach of IFRS Standards from the IASB throughout and beyond the European Union into interest groups and emerging economies. Other key elements explored throughout the book include assurance through auditing and corporate governance, narrative reporting, strategic and corporate social responsibility, group accounting, current accounting issues and taxation in corporate reports. Indicative research examples show how the methods used in research papers may be understood and applied. Case studies outline short projects based on corporate cases with related links to material on corporate websites. Helpful and reliable sources of information and data are identified through

hyperlinks to accessible websites End of chapter questions encourage discussion of the main issues Throughout there is a focus on accountability and the information needs of stakeholders This new edition of a classic text is fully revised and updated in order to remain essential reading for students of international accounting and corporate reporting globally The book will be an invaluable resource for postgraduate taught programmes and final year undergraduate courses in accounting finance and business studies

The Plunder of Black America Calvin Schermerhorn, 2025-02-11 The long history of the racial wealth gap in America told through the stories of seven Black families who struggled to build wealth over multiple generations Wealth is central to the American pursuit of happiness and is an overriding measure of well being Yet wealth is conspicuously absent from African American households Why do some 3 5 million Black American families have zero or negative wealth Historian Calvin Schermerhorn traces four hundred years of Black dispossession and decapitalization what Frederick Douglass called plunder through the stories of families who have strived to earn and keep the fruits of their toils Their struggles reveal that the ever evolving strategies to strip Black income and wealth have been critical to sustaining a structure of racialized disadvantage These accounts also tell of the quiet heroism of those who worked to overcome obstacles and defy the plunder From the story of Anthony and Mary Johnson abducted from Angola and brought to Virginia in 1619 to the enslaved Black workers dispossessed by the Custis Washington family to Venture Smith born Broteer Furro who purchased his freedom to three generations of a family enslaved in the South who moved north after Emancipation to the Tulsa massacre and the subprime lending crisis Schermerhorn shows that we cannot reckon with today's racial wealth inequality without understanding its unrelenting role in American history
