Hill, 2013 Deficient urban schooling remains one of America s most pressing and stubborn public policy problems This important new book details and evaluates a radical and promising new approach to K 12 education reform Strife and Progress explains for a broad audience the portfolio strategy for providing urban education its rationale implementation and results Under the portfolio strategy cities use anything that works indifferent to whether schools are run by the public district or private entities It combines traditional modes of schooling with newer methods including chartering and experimentation with schools making innovative use of people and technology Urban districts try to make themselves magnets for new talent recruiting educators and career switchers looking to make a difference for poor children The portfolio strategy creates interesting new bedfellows people who think that government should oversee public education align with those advocating choice competition and entrepreneurship It cuts across political lines and engages city governments and civic assets e g philanthropies businesses universities much more deeply than earlier reform initiatives New York and New Orleans were portfolio pioneers but the idea has spread rapidly to cities as far flung as Los Angeles Denver and Chicago Results have been mixed overall but generally positive in places that implemented the strategy most aggressively Reform leaders such as New York s Joel Klein have been overly optimistic however assuming that the strategy s merits would be so obvious that careful assessment would be unnecessary Serious policy evaluation is still needed **School Life** ,1925
