Research in Education ,1969-05 Decay Ghassan Hage,2021-08-23 In eleven sharp essays the contributors to *Decay*

attend to the processes and experiences of symbolic and material decay in a variety of sociopolitical contexts across the globe. They examine decay in its myriad manifestations: biological, physical, organizational, moral, political, personal, and social, and in numerous contexts including colonialism and imperialism, governments and the state, racism, the environment, and infrastructure. The volume's topics are wide in scope, ranging from the discourse of social decay in contemporary Australian settler colonialism and the ways infrastructures both create and experience decay to cultural decay in the aftermath of the Sri Lankan civil war and the relations among individual, institutional, and societal decay in an American high security prison. By using decay as a problematic and expounding its mechanisms, conditions, and temporalities, the contributors provide nuanced and rigorous means to more fully grapple with the exigencies of the current sociopolitical moment.
