Answers will vary. Suggested answers:

Obsession can be helpful or destructive, depending on the person. This can be clearly seen in two examples from the sports world. Alex Honnold and Ashley Jones are both **strongly focused**. Their obsession leads to success in sports. In addition, **their obsession is related to being perfect**. However, there are important differences between them. Alex Honnold is a fearless rock climber. The world seems beautiful to him, and his family is supportive. Ashley Jones is very competitive and needs to feel in control because the world seems scary and her family adds pressure on her. Also, her obsession leads to illness. As we look at these examples, it is interesting to see how obsession can either help or harm a person.
