Score					

Claim:
There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Note Taking Guide Program 11answers

Judd E. Hollander

Note Taking Guide Program 11answers:

Rapid Ethnographic Assessments Thurka Sangaramoorthy, Karen A Kroeger, 2020-03-09 Please see the website of author Thurka Sangaramoorthy for extra resources and material related to this book at thurkasangaramoorthy.com Click on the book's cover and be sure to check back for updated content This book provides a practical guide to understanding and conducting rapid ethnographic assessments REAs with an emphasis on their use in public health contexts This team based multi method relatively low cost approach results in rich understandings of social economic and policy factors that contribute to the root causes of an emerging situation and provides rapid practical feedback to policy makers and programs Using real world examples and case studies of completed REAs Sangaramoorthy and Kroeger provide readers with a logical easy to follow introduction into key concepts principles and methods of REAs including interview and observation techniques triangulation field notes and debriefing theoretical saturation and qualitative analysis They also provide a practical guide for planning and implementing REAs and suggestions for transforming findings into written reports and actionable recommendations Materials and detailed tools regarding the conduct of REAs are designed to help readers apply this method to their own research regardless of topic or discipline REA is an applied approach that can facilitate collaborative work with communities and become a catalyst for action Rapid Ethnographic Assessment will appeal to professionals and researchers interested in using REAs for research efficiency and productivity as well as action oriented and translational research in a variety of fields and contexts
