Library Journal ,1968-04 **Doing Oral History** Donald A. Ritchie,2014-09-19 Doing Oral History is considered the premier guidebook to oral history used by professional oral historians public historians archivists and genealogists as a core text in college courses and throughout the public history community Over the past decades the development of digital audio and video recording technology has continued to alter the practice of oral history making it even easier to produce quality recordings and to disseminate them on the Internet This basic manual offers detailed advice on setting up an oral history project conducting interviews making video recordings preserving oral history collections in archives and libraries and teaching and presenting oral history Using the existing Q A format the third edition asks new questions and augments previous answers with new material particularly in these areas 1 Technology As before the book avoids recommending specific equipment but weighs the merits of the types of technology available for audio and video recording transcription preservation and dissemination Information about web sites is expanded and more discussion is provided about how other oral history projects have posted their interviews online 2 Teaching The new edition addresses the use of oral history in online teaching It also expands the discussion of Institutional Review Boards IRBs with the latest information about compliance issues 3 Presentation Once interviews have been conducted there are many opportunities for creative presentation There is much new material available on innovative forms of presentation developed over the last decade including interpretive dance and other public performances 4 Legal considerations The recent Boston College case in which the courts have ruled that Irish police should have access to sealed oral history transcripts has re focused attention on the problems of protecting donor restrictions The new edition offers case studies from the past decade 5 Theory and Memory As

a beginner's manual *Doing Oral History* has not dealt extensively with theoretical issues on the grounds that these emerge best from practice. But the third edition includes the latest thinking about memory and provides a sample of some of the theoretical issues surrounding oral sources. It will include examples of increased studies into catastrophe and trauma and the special considerations these have generated for interviewers.

6 Internationalism Perhaps the biggest development in the past decade has been the spreading of oral history around the world facilitated in part by the International Oral History Association. New oral history projects have developed in areas that have undergone social and political upheavals where the traditional archives reflect the old regimes particularly in Eastern Europe, the Middle East, Asia, Africa, and Latin America. The third edition includes many more references to non-U.S. projects that will still be relevant to an American audience. These changes make the third edition of *Doing Oral History* an even more useful tool for beginners, teachers, archivists, and all those oral history managers who have inherited older collections that must be converted to the latest technology.

Students as Historians, Scott K. Scheuerell, 2024-07-30. *Students as Historians Using Technology to Examine Local History Beyond the Classroom* makes a case for using technology to further the research of local history. Part 1 of the book explores the history of Black people in communities across the nation while Part 2 uses census reports, Google Earth, and other materials to investigate. One example includes Western Missouri on the eve of the Civil War. Part 3 involves design-based research in a social studies classroom where students investigated the history of Mobile, AL during the Civil Rights movement using technology. Throughout the book, the Inquiry Design Model (IDM) is emphasized and implemented.

Monumental Fury Matthew Fraser, 2022-11-15 Recent years in America have seen Confederate monuments toppled statues of colonizers vandalized and public icons commemorating figures from a history of exploitation demolished Some were alarmed by the destruction claiming that pulling down public statues is a negation of an entire cultural heritage For others statue smashing is justified vandalism against a legacy of injustice *Monumental Fury* confronts the long neglected questions of our relationship with statues icons and monuments in public spaces providing a rich historical perspective on iconoclastic violence Organized according to specific themes that provide insights into the erection and destruction of statues from religion war and revolution to colonialism ideology art and social justice author Matthew Fraser examines the implications of our monuments from the Buddhas of Bamiyan to those of Napoleon Bonaparte Abraham Lincoln Robert E Lee Vladimir Lenin and many more Above all the book endeavors to frame moments of statue toppling throughout history so we can better understand the eruptions of iconoclastic violence that we are witnessing today Statues are erected as expressions of power and the impulse to destroy them is motivated by a desire to defy reject and eradicate their authority However the symbolic

power of statues can stubbornly persist even after their destruction This enduring paradox between destruction and resurrection is at the heart of this book Fraser concludes with reflections that propose new ways of thinking about our relationship with statues and monuments and more practically about how we can creatively integrate their legacy into our collective memory in a way that inclusively enriches shared historical experience Readers' Guide to Periodical Literature ,1916 Index to Jewish Periodicals ,2005 An author and subject index to selected and American Anglo Jewish journals of general and scholarly interests Reader's Guide to Periodical Literature Supplement ,1916 **Canadiana** ,1966
