

Notification No.2/2011 – Service Tax

Determination of value of service in relation to money changing. - Rule 2B of Service Tax (Determination of Value) Rules, 2006 inserted.

Subject to the provisions of section 67, the value of taxable service provided for the services referred to in sub-clause (zm) and (zzk) of clause (105) of section 65 of the Act, so far as it pertains to purchase or sale of foreign currency, including money changing, shall be determined by the service provider in the following manner:-

For a currency, when exchanged from, or to, Indian Rupees (INR), the value shall be equal to the difference in the buying rate or the selling rate, as the case may be, and the Reserve Bank of India (RBI) reference rate for that currency for that day, multiplied by the total units of currency.

Example I: US\$100 are sold by a customer at the rate of Rupees 45 per US\$. RBI reference rate for US\$ is Rupees 45.50 for that day. The taxable value shall be Rupees 500.

Example II: INR70000 is changed into Great Britain Pound (GBP) and the exchange rate offered is Rupees 70, thereby giving GBP 1000. RBI reference rate for that day for GBP is Rupees 69. The taxable value shall be Rupees 1000.

Provided that in case where the RBI reference rate for a currency is not available, the value shall be 1% of the gross amount of Indian Rupees provided or received, by the person changing the money; Provided further that in case where neither of the currencies exchanged is Indian Rupee, the value shall be equal to 1% of the lesser of the two amounts the person changing the money would have received by converting any of the two currencies into Indian Rupee on that day at the reference rate provided by RBI;

Effective date - The above changes will come into effect from a date to be notified, after the enactment of Finance Bill, 2011.

Securities and Exchange Commission,2011 *A Study of Service Tax in India and its Analysis* Dr. Makarand Raghunath Sakhalkar,2018-03-05 Based on recommendations made by Chelliah Committee on Tax Reforms Service Tax was introduced for the first time in the year 1994 It is a Union levy with a selective approach whereby it is applicable to selected categories of services and not to all the services The system of levy and collection of Excise Duties on goods is in existence since 1944 under Central Excise Act 1944 However the concept

of levy and collection of Service Tax on paid services was introduced in India for the first time in 1994 by the then Finance Minister Dr Manmohan Singh. It is a tax levied on the transaction of certain specified services by the Central Government under the Finance Act 1994. It is an indirect tax which means that normally the service provider pays the tax and recovers the amount from the recipient of taxable service.

Green Energy Transition in China Haifeng Deng, 2024-06-17. This book contributes to the scholarly and policy debate about China's ongoing and increasingly ambitious strategies and actions in its pursuit of the green energy transition. Transitioning to a greener and more sustainable economy has become a shared policy priority worldwide in response to existential challenges posed by climate change and environmental degradation. After decades of unprecedented industrialization and economic growth at the expense of the environment, this green energy transition now tops China's development agenda. Indeed, China already has years of experience advancing climate policies and institutional and regulatory mechanisms at home and is already a major player in advocating cooperation on climate actions internationally. At the same time, the development of new electrical power systems and the energy internet in China has been shaped not only by China's overarching economic development goals and plans but also by its international engagements and commitments with the involvement of a diverse range of stakeholders and driving forces. This book focuses on exploring the legal challenges encountered in the development of China's new power system and energy internet and takes the power grid enterprises that are at the core of the energy Internet value chain as the hub to deeply explore the role of key players in China's green energy transformation in the evolution of China's climate policies and actions.
