

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Homeschooling in the 21st Century Robert Maranto, Debra A. Bell, 2018-10-18 Education began on the most intimate levels the family and the community With industrialization education became professionalized and bureaucratized typically conducted in schools rather than homes Over the past half century however schooling has increasingly returned home both in the United States and across the globe This reflects several trends including greater affluence and smaller family size leading parents to focus more on child well being declining faith in professionals including educators and the Internet whose resources facilitate home education In the United States students who are homeschooled for at least part of their childhood outnumber those in charter schools Yet remarkably little research addresses homeschooling This book brings together work from 20 researchers addressing a range of homeschooling topics including the evolving legal and institutional frameworks behind home education why some parents make this choice home education educational environments special education and outcomes regarding both academic achievement and political tolerance In short this book offers the most up to date research to guide policy makers and home educators a matter of great importance given the agenda of the current presidential administration The chapters in this book were originally published as articles in the Journal of School Choice

The Invention of Childhood Creativity Cat Martins, 2024-11-15 This text offers a comprehensive analysis of the concept of the modern creative and imaginative child in Western education Drawing on archived sources and historical works it reframes childhood creativity as a social cultural and scientific construction asking how our thinking and acting toward the creative child have been produced historically The text dissects the discursive construction of creativity as a natural and developmental attribute of the child It argues that the idea of the White creative child constructed through comparative reasoning shaped by primitivism and illustrated through botanical metaphors as close to nature and the senses is a notion embedded with colonialities forming part of a Western civilizing project and entrenched power knowledge relations A compelling and original account of childhood creativity this text will appeal to researchers in arts education early childhood education curriculum studies and the history of education
