## **November 2014 Business Studies Scope:**

*Global Financial Stability Report, April 2014* International Monetary Fund, 2014-04-09 The April 2014 Global Financial Stability Report finds that despite much progress the global financial system remains in a transitional period with stability conditions far from normal Advanced and emerging market economies alike need to make a successful shift from liquidity to growth driven markets which will require a number of elements including a normalization of U S monetary policy financial rebalancing in emerging markets further progress in the euro area integration and continued implementation of Abenomics in Japan This report also examines how changes in the investor base and financial deepening affect emerging market economies as well as looks at the issue of banks considered too important to fail providing new estimates of the implicit funding subsidy these banks receive

**Sustainable Investing** Cary Krosinsky, Sophie Purdom, 2016-12-08 A seminal shift has taken place in the world of investing A clear and overarching reality has emerged which must be solved financial considerations must factor in sustainability considerations for ongoing societal success while sustainability issues equally need to be driven by a business case As a result investment practices are evolving especially towards more positive philosophies and frameworks Sustainable Investing brings the reader up to speed on trends playing out in each region and asset class drawing on contributions from leading practitioners across the globe Implications abound for financial professionals and other interested investors as well as corporations seeking to understand future investment trends that will affect their shareholders thinking Policymakers and other stakeholders also need to be aware of what is happening in order to understand how they can be most effective at helping implement and enable the changes arguably now required for economic and financial success Sustainable Investing represents an essential overview of sustainable investment practices that will be a valuable resource for students and scholars of sustainable banking and finance as well as professionals and policymakers with an interest in this fast moving field

Environmental Pollution and the Media Glenn D. Hook, Libby Lester, Meng Ji, Kingsley Edney, Chris G. Pope, Luli van der Does-Ishikawa, 2017-04-07 This book offers a theoretically informed empirical investigation of national media reporting and political discourse on environmental issues in Australia China and Japan It illuminates the risks harms and responsibilities associated with climate change through an analysis of pollution adopting an interdisciplinary approach drawing on both the social sciences and humanities A particular strength of the work is the detailed analysis of the data using a range of both quantitative and qualitative techniques enabling the authors to reveal in rich and compelling detail the complex relationship between risk and responsibility in the climate change discourse The case studies of Australia China and Japan are set in the current literature as well as in the historical context of climate change in these three countries The analysis of the media discourse on the Great Barrier Reef in Australia demonstrates how the mining of coal for overseas markets has led to devastating harm to the life of the reef A critical discussion of the Chinese documentary Under the Dome shows how this medium has played a crucial role in building awareness of the harm from

atmospheric pollution among the citizens shaping attitudes and promoting action The first case study of Japan elucidates how cross border atmospheric pollution from China forges a chain of responsibility for responding to climate change running from the state to society The other case study of Japan demonstrates how smart cities have emerged as a way to mitigate the risks and harms of climate change The Conclusion draws together the similarities and differences in how climate change is addressed in the three countries In all Environmental Pollution and the Media Political Discourses of Risk and Responsibility in Australia China and Japan uncovers the dynamics of the triadic relationship among risk harm and climate change in Australia China and Japan By so doing the book makes an original and timely contribution to understanding comparative media discourse and political debates on climate change

**The Law and Economics of Personalization** Adrianus Johannes Van Heusden, 2025-09-01 Imagine every ad every price and even every contract completely tailored to you welcome to the age of AI driven hyper personalization Today vast amounts of consumer data are collected and processed to build individualized profiles with ever increasing precision This enables one to one interactions that evolve in real time and allow firms to influence behavior with unprecedented subtlety Personalized marketing holds the promise of meeting consumer needs more effectively and making digital experiences more relevant and efficient Yet this seemingly customized environment raises urgent concerns about the power of such marketing to exploit cognitive biases reshape preferences and deepen asymmetries in digital markets This book offers the first in depth law and economics analysis of personalized marketing in the digital age It examines how personalized advertising pricing and contracting challenge foundational principles of consumer protection and explores to what extent these practices are regulated under the current EU legal framework The analysis shows that while existing rules provide some safeguards they fall short of addressing the systemic risks posed by hyper personalization To respond to these challenges the book develops a four part policy approach aimed at reinforcing consumer autonomy equity and welfare in data driven markets and bridging the regulatory gaps that personalization opens up Regulating these developments involves a clear trade off between efficiency and fairness How much freedom do you give up in exchange for a hyper personalized experience How confident are you that the price you pay will not exceed what others pay for the exact same service And what does it mean for your autonomy when an algorithm predicts your behavior better than you do yourself This book offers a critical starting point for future regulation and a call to rethink the role of personalization in the digital economy
