*Innovation Strategies and Organizational Culture in Tourism* Marco Valeri, 2024-02-06 This book analyzes the importance of innovation as the key driver of sustained success in the tourism industry and the knowledge sharing process. It explores its impact on innovation capability and innovation performance of organizations. With 12 chapters written by 22 contributors, the book offers international reflections. The first part of the book focuses on innovation management strategies and analyzes the importance of innovation as the key driver of sustained success in the tourism industry. Tourism and hospitality firms develop innovations with specific objectives and goals in mind and have several approaches to measure performance accordingly. The second part of the book focuses on knowledge sharing through case studies. Chapters analyze the knowledge sharing process and its impact on the innovation capability and innovation performance of the firms. The essence of knowledge sharing is to provide a framework for management in their attempt to develop and enhance their organizational capability to innovate in tourism. This invaluable book provides both theoretical and practical insights into innovation strategies and knowledge sharing in tourism. **Mass Tourism in a Small World** David Harrison, Richard Sharpley, 2017-05-26 This new book reviews all aspects of the phenomenon of mass tourism. It covers theoretical perspectives including political economy, ethics, sustainability and environmentalism, the historical context and the current challenges to domestic, intra-regional and international mass tourism. As tourism and tourist numbers continue to grow around the world, it becomes increasingly important that this subject is studied in depth and best practice applied in real life situations. Finishing with a speculative chapter identifying potential future trends and challenges, this book forms an essential resource for all researchers and students within tourism studies.

Tourism in the City Nicola Bellini, Cecilia Pasquinelli, 2016-08-29 This book critically explores the interconnections between tourism and the contemporary city from a policy-oriented standpoint, combining tourism perspectives with discussion of urban models, issues and challenges. Research-based analyses addressing managerial issues and evaluating policy implications are described, and a comprehensive set of case studies is presented to demonstrate practices and policies in various urban contexts. A key message is that tourism policies should be conceived as integrated urban policies that promote tourism performance as a means of fostering urban quality and the well-being of local communities, e.g. in terms of quality spaces, employment, accessibility, innovation and learning opportunities. In addition to highlighting the significance of urban tourism in relation to key urban challenges, the book reflects on the risks and tensions associated with its development, including the rise of anti-tourism movements as a reaction to touristification, cultural commodification and gentrification. Attention is drawn to asymmetries in the costs and benefits of the city tourism phenomenon, and the supposedly unavoidable trade-off between the interests of residents and tourists is critically questioned.
