Daily Graphic Ransford Tetteh, 2014-09-10 **Sharing the Adventure with the Student** National Research Council, Board on Science Education, Division on Engineering and Physical Sciences, Space Studies Board, Planning Committee on Sharing the Adventure with the Student: Exploring the Intersections of NASA Space Science and Education: A Workshop, 2015-06-17 On December 2-3, 2014, the Space Studies Board and the Board on Science Education of the National Research Council held a workshop on the NASA Science Mission Directorate SMD education program Sharing the Adventure with the Student. The workshop brought together representatives of the space science and science education communities to discuss maximizing the effectiveness of the transfer of knowledge from the scientists supported by NASA's SMD to K-12 students directly and to teachers and informal educators. The workshop focused not only on the effectiveness of recent models for transferring science content and scientific practices to students but also served as a venue for dialogue between education specialists, education staff from NASA and other agencies, space scientists and engineers, and science content generators. Workshop participants reviewed case studies of scientists or engineers who were able to successfully translate their research results and research experiences into formal and informal student science learning. Education specialists shared how science can be translated to education materials and directly to students, and teachers shared their experiences of space science in their classrooms. Sharing the Adventure with the Student is the summary of the presentation and discussions of the workshop.

do Kids learn as we've all learned that thinness is a survival strategy in a world that equates body size and value. We've fought the war on obesity for over forty years and Americans aren't thinner or happier with their bodies. But it's not our kids or their weight who need fixing. In this illuminating narrative, journalist Virginia Sole Smith exposes the daily onslaught of fatphobia and body shaming that kids face from school sports, doctors, diet culture, and parents themselves and offers strategies for how families can change the conversation around weight, health, and self-worth. *Fat Talk* is a stirring, deeply researched, and groundbreaking book that will help parents learn to reckon with their own body biases, identify diet culture, and empower their kids to navigate this challenging landscape.
