Impacts of the Knowledge Society on Economic and Social Growth in Africa Amoah, Lloyd G.

Adu, 2014-03-31 In a world that is essentially digitizing some have argued that the idea of the knowledge society holds the

greatest promise for Africa's rapid socio-economic transformation

Impacts of the Knowledge Society on Economic and Social Growth in Africa aims to catalyze thinking and provide relevant information on the complex ways in which the information age is shaping Africa and the implications that this will have for the continent and the world. This premier reference volume will provide policy analysts, policymakers, academics, and researchers with fresh insights into the key empirical and theoretical matters framing Africa's ongoing digitization. **Ending Extreme Inequality** Scott Myers-Lipton, 2015-11-17

Poverty and inequality are at record levels. Today, forty-seven million Americans live in poverty while the median is in decline. The top 20 percent now controls 89 percent of all wealth. These conditions have renewed demands for a new Economic Bill of Rights, an idea proposed by F.D. Roosevelt, Truman, and Martin Luther King Jr. The new Economic Bill of Rights has a coherent plan and proclaims that all Americans have the right to a job, a living wage, a decent home, adequate medical care, good education, and adequate protection from economic fears of unemployment, sickness, and old age. Integrating the latest economic and social data, *Ending Extreme Inequality* explores each of these rights. Each chapter includes an analysis of the social problems surrounding each right, a historical overview of the attempts to right these wrongs, and assessments of current solutions offered by citizens, community groups, and politicians. These contemporary, real-life solutions to inequality can inspire students and citizens to become involved and open pathways toward a more just society.

Outward Foreign Direct Investment in ASEAN Cassey Lee, 2017-02-15

The level of outward foreign direct investment (OFDI) flows from ASEAN countries has increased rapidly in past two decades. This book examines OFDI trends and patterns in the ASEAN region, including the impact of the ASEAN Economic Community. It also provides analyses of country policies affecting OFDI and the drivers of OFDI in Indonesia, Malaysia, Singapore, and Vietnam. Myanmar is studied as an investment frontier for other ASEAN countries. The dynamic economies of Southeast Asia have historically been very large recipients of foreign direct investment (FDI). As global capital markets have opened up and these economies have developed their technological and commercial capabilities in more recent years, Southeast Asia has emerged as a significant source of outward FDI both within the region and beyond. This important volume by a group of leading regional scholars offers a timely, comprehensive, accessible, and authoritative analysis of this phenomenon.

Hal Hill, H.W. Arndt, Professor of Southeast Asian Economies, Arndt Corden Department of Economics, Crawford School of Public Policy, Australian National University. A timely, rich, and comprehensive study filling a major gap in the literature on the increasingly important phenomenon of foreign investment flowing out from regions including developing and middle-income countries.

Luke Nottage, Professor of Comparative and Transnational Business Law, Associate Director, Centre for Asian and Pacific Law at the University of Sydney.
