An Annotated Bibliography of Nineteenth-Century Grammars of English Manfred Görlach, 1998-11-15 In the 19th century education became accessible to much wider circles of society in a great number and variety of schools and the teaching of grammar came to be obligatory from 1870/72 with the advent of general education Whereas these general trends of the 19th century are well known to scholars working in different disciplines of social history and the history of education in particular it is still true that major sections of the evidence are largely uncollected This is especially so for school books there is virtually a gap between the 18th century and the present grammatical tradition This bibliography lists some 1930 works on English grammar published in the 19th century mainly in Britain and the US half of which are accompanied by short descriptions of their physical make up content and affiliation

The Vampire in Nineteenth Century English Literature Carol A. Senf, 2013-02 Carol A Senf traces the vampire's evolution from folklore to twentieth century popular culture and explains why this creature became such an important metaphor in Victorian England This bloodsucker who had stalked the folklore of almost every culture became the property of serious artists and thinkers in Victorian England including Charlotte and Emily Brontë George Eliot Charles Dickens Karl Marx and Friedrich Engels People who did not believe in the existence of vampires nonetheless saw numerous metaphoric possibilities in a creature from the past that exerted pressure on the present and was often threatening because of its sexuality

English Literature of the Nineteenth Century: on the plan of the author's "Compendium of English Literature," and supplementary to it ... Stereotype edition Charles Dexter CLEVELAND, 1857 *English Literature of the Nineteenth Century ...* Charles Dexter Cleveland, 1851 **English Prose: Nineteenth century** Sir Henry Craik, 1923

Islam as Imagined in Eighteenth and Nineteenth Century English Literature Clinton Bennett, 2022-11-29 Since medieval times English literature has often demonized Muslims The term Islamophobia is recent but the phenomenon is old This survey of literature focusing on the modern period up to 1914 identifies negative ideas about Islam in novels and plays Some works are iconic some more obscure However the book highlights writers who challenged stereotypes and tended to see Muslims as equally capable of virtue and vice as Christians and others The book deals with the role of the imagination in depicting others and how this serves authors' agendas The conclusion brings the book's thesis into dialogue with the debate in the USA today between supporters of multiculturalism and its critics Anyone interested in how stereotypes are formed perpetuated and can be challenged will profit from this book It is aimed at a non specialist readership

Hans Christian Andersen in American Literary Criticism of the Nineteenth Century Herbert Rowland, 2020-11-03 In *Hans Christian Andersen in American Literary Criticism of the Nineteenth Century* Herbert Rowland argues that the literary criticism accompanying the publication of Hans Christian Andersen's works in the United States compares favorably in scope perceptiveness and chronological coverage with the few other national receptions of Andersen outside of Denmark Rowland contends that American commentators made it abundantly evident that in addition to his fairy tales Andersen wrote several

novels travelogues and an autobiography which were all of more than common interest In the process Rowland shows that American commentators naturalized Andersen in the United States by confronting the sensationalism in the journalism and literature of the time with the perceived wholesomeness of Andersen s writing deploying his long fiction on both sides of the debate over the nature and relative value of the romance and the novel and drawing on three of his works to support their positions on slavery the Civil War and Reconstruction

'Gypsies' in Nineteenth-Century Children's Books Jean Kommers,2023-03-06 This literary analysis of the representation of Gypsies in juvenile literature is unique in its comparative scope as well as in the special attention to rare pre 1850 narratives the period in which juvenile literature developed as a specific genre Most studies on the subject are about one national literary tradition or confined to a limited period In this study Dutch English French and German texts are analysed and discussed with reference to main academic publications on the subject Emphasis is on the rich variation in narrative presentations rather than on an inventory of images or prejudices An important topic is the fundamental difference between early English and German narratives Important because of the wide dissemination of German stories
