An Evaluation of Japanese Environmental Regulations Toshi H. Arimura,Kazuyuki Iwata,2015-05-30 Focusing on air pollution energy efficiency and climate change this book provides an introduction to Japan s environmental policies and regulations and offers economic analyses and RIAs Regulatory Impact Analysis of environmental regulations implemented or planned by the national and local governments The opening chapter reviews environmental economics and outlines the current status of RIAs in Japan Chapter 2 analyzes the NOx PM Act which prohibits the use of old and polluting vehicles in metropolitan areas Chapter 3 examines a Tokyo metropolitan government regulation which requires installation of pollution control equipment in older trucks that fail to meet emission standards Chapter 4 traces the impact of the NOx PM Act on the used car market and used vehicle exports Chapter 5 presents an economic analysis of a highway toll reduction revealing an unexpected negative social impact it increased traffic congestion and associated environmental problems The final three chapters address policies and regulations related to energy efficiency and climate change Chapter 6 evaluates the effectiveness of Japan s Energy Conservation Act originally introduced in 1979 and amended numerous times to address climate change Chapter 7 anticipates the impact of a proposed economy wide carbon tax using input output analysis to assess short term economic impacts in each sector Also presented here is an examination of the effectiveness of a reduced carbon tax for energy intensive industries with a discussion of the impact of the proposal on households The final chapter discusses the role and limitations of economic models for evaluating Japan s mid term GHG Greenhouse Gas emission target during the post Kyoto period This is the first book to evaluate Japanese environmental policies from an economic perspective using a variety of current quantitative approaches Its findings and suggestions will benefit students policy makers and government officials in developing and developed countries where the public faces similar environmental problems

Mobile and Rapidly Assembled Structures IV N. De Temmerman,C. A. Brebbia,2014-06-11 Structures that move in the course of normal use or which have to be assembled or erected rapidly on a relatively unprepared site offer a particular challenge to the designer The interaction between the structure and the mechanism by which it moves is essential in these cases The speed of assembly what this means in terms of logistics materials and cost is a major factor in many such structures Mobile and rapidly assembled structures play a major role in disaster mitigation and temporary accommodation They are of primary importance in many military as well as civilian applications and are widely used for rescue and maintenance services Their importance continues to grow in contemporary society where speed of response is of primary importance Also in many cases their reversible deployment and potential reuse can lead to a lower economical and or

ecological impact providing a more sustainable solution There are common problems such as the efficient design of assembly joints the resistance to damage of the membrane and metal cladding crashworthiness and the limits of serviceability Some areas of the subject are already well documented but knowledge is fragmented and there is little design guidance available in the form of textbooks data sheets or codes of practice The interaction between morphology kinematic behaviour and structural performance typical for these structures poses real challenges in terms of design and successful realisation This multi disciplinary proceedings volume contains papers presented at the fourth International Conference on Mobile Adaptable and Rapidly Assembled Structures Topics covered include Rapidly erected bridges and transportable bridges Disaster mitigation structures Temporary structures and dwellings Deployable systems and structural mechanisms Tensegrity and reciprocal frames Origami based structures Inflated and air supported structures and membrane shelters Rapidly assembled kit of parts systems Leisure structures demountable grandstands and scaffolding systems Mobile inspection platforms Folding and telescopic masts and gangways Tower cranes and mobile lifting apparatus Trackways and prefabricated paving for roads and airfields Protective structures Rapid repairs of structures Structures in adverse conditions Spacecraft structures Construction and repair *Kenya Gazette* ,2011-03-11 The Kenya Gazette is an official publication of the government of the Republic of Kenya It contains notices of new legislation notices required to be published by law or policy as well as other announcements that are published for general public information It is published every week usually on Friday with occasional releases of special or supplementary editions within the week Focus On: 100 Most Popular Compact Cars Wikipedia contributors, *Automotive Industrialisation* Kaoru Natsuda,John Thoburn,2020-10-14 This book looks at the industrial policies of Southeast Asian economies in their motor vehicle industries from early import substitution to policy making under the more liberalised WTO policy regime The book examines how inward automotive investment especially from Japan has been affected by policies and how such investment has promoted industrial development in the late industrialising economies within ASEAN Association of Southeast Asian Nations It provides insights into the automotive industry of Southeast Asia in terms of production volumes sales volumes market structure and trade Through country case studies the book is a useful reference and illustrates how industrial policies in Southeast Asia have affected the spread of automotive development in the region It will appeal to policy makers and researchers interested in the automobile industry industrial policies in the industry and the spread of development from foreign investors to local firms **Pattaya Undercover** Ewe Paik Leong,2019-11-01 Promising sun sea sand and more Pattaya beach resort in Thailand lures eight million foreign tourists annually However behind the glitter lurks broken dreams ethereal ecstasy and often tragedy And behind every bargirl s smile and every foreigner s beer glass lurks a story happy touching heart wrenching The author interviews bargirls mamasans and customers who reveal true stories of sex scams doomed relationships and tragic suicides The author s investigation takes him to the capital Bangkok as well as to an Isaan village in northeastern Thailand and
