**Juan Luis Vives: Politics, Rhetoric, and Emotions** Kaarlo Havu,2022-04-30 By looking at rhetoric and politics this book offers a novel account of Juan Luis Vives intellectual oeuvre It argues that Vives adjusted rhetorical theory to a monarchical context in which direct speech was not a possibility demonstrated how Erasmian languages of ethical self government and political peace were actualised rhetorically and critically in a princely environment and finally rethought the cognitive and emotional foundations of humanist rhetoric in his late and famous *De anima et vita* 1538 Ultimately towards the end of his life Vives epitomised a distinctively cognitive view of politics he maintained that political concord was not a direct outcome of institutional or legal reform or of the spiritual transformation of the Christian world an optimistic Erasmian interpretation but that concord could only be upheld once the dynamics of emotions that motivated political action were understood and controlled through responsible rhetoric that respected decorum and civility

Pohl, Cameron White, Christine Beaudry, 2021-02-01

There is only one place where social education can occur and flourish through the voices that create a pedagogy of change And it is these voices where the most exciting and provocative moments can occur for those of us who are passionate about education teaching social justice equity and love As such social education is a journey an endeavor that makes us savor the experience of the journey more than the destination And social education is a journey that is enhanced through educator and student voices because it occurs in the most important spaces of our personal and professional lives It occurs in the

hallways of the schools we teach in the staff meetings we attend in the mountain villages we venture to visit in the places we work and in the spaces we occupy Moreover social education is a unique kind of journey because it is a human experience that seldom occurs alone It happens with our colleagues and our loved ones It happens with our students administrators and other professionals who are fighting for the same things that we so fervently believe In the end social education occurs and flourishes in the trenches because it is the active pursuit of getting our hands dirty in our endless pursuit for a better and more just world Social education is also a narrative which takes on a different meaning for each one of us This is because sooner or later each person that embarks into the journey of social education develops its own personal definition of what social education entails through his or her own personal landscape and knowledge This personal landscape has been evolving since we were very young with some of the best examples of human courage and tenacity in the fight for social justice Voices of Social Education A Pedagogy of Change is a collection of personal stories In this volume academics teachers students activists and artists share their personal stories of triumph tribulations and courage in their daily fight for social justice and equality The term social education is not defined as a set number of guidelines or a specific definition we give the term an organic fluency to stress that social education is a point of encounter a common space where we can share with each other our experiences values and culture to form a more genuine and just social experience
