Responsible Governance: A Case Study Approach Steven G. Koven, 2014-12-18 This book is designed to show readers how ethics can constrain improper behavior To demonstrate the relationship of ethics to good government the author presents high profile case studies that were selected for their notoriety and their ability to connect the reader to fundamental ethical questions Themes of public interest natural law and rule of law provide a framework for the case studies which include torture Abu Ghraib impeachment Clinton competence FEMA electoral violation DeLay and historical corruption machine politics The chapters discuss concepts that help to define responsible behavior in terms of behavior in elections honesty and competence and international law *Responsible Governance* Steven G. Koven, 2008 This book is designed to show readers how ethics can constrain improper behavior To demonstrate the relationship of ethics to good government the author presents high profile case studies that were selected for their notoriety and their ability to connect the reader to fundamental ethical questions Themes of public interest natural law and rule of law provide a framework for the case studies which include torture Abu Ghraib impeachment Clinton competence FEMA electoral violation DeLay and historical corruption machine politics The chapters discuss concepts that help to define responsible behavior in terms of behavior in elections honesty and competence and international law *Mastering Healthcare Regulation: A Comprehensive Case Study Approach* Jessica Holmes, Robin J. Lunge, Betty Rambur, 2024-04-30 Trying to make sense of the regulatory landscape in healthcare can be difficult The many federal and state entities and their rules may work together yet they sometimes contradict one another Mastering Healthcare Regulation will help readers understand and ultimately navigate the numerous layers of regulatory oversight within the healthcare system This book clarifies laws and regulations with straightforward explanations and case studies that place readers in the shoes of regulatory decision makers The first section presents an overview of healthcare regulation including market dynamics and the interactions between the various regulatory organizations Each section that follows focuses on a broad subject that regulations seek to address cost containment consumer protection payment and delivery system reform and patient access health and safety Background is provided on each issue and real world scenarios are used to illustrate regulatory approaches and their economic legal and clinical ramifications The book will teach readers how to decipher the regulatory landscape s complexities and how to influence regulations rather than simply being impacted by them *The Case Against Bureaucratic Discretion* Steven G. Koven, 2019-01-25 This book explores contemporary and historical examples of bureaucratic discretion to describe a continuum of resistance to authoritative directives by hierarchical superiors Resistance ranges from blind obedience or complete nonresistance to street level opposition in between these extremes however are minimal compliance and resistance sanctioned by immediate superiors Although politicians may pass legislation the subject of bureaucratic implementation or lack thereof remains an area of vital concern Grounded in administrative theory beginning with Woodrow Wilson s seminal

discussion of the virtue of adopting a businesslike approach to American governing and emphasizing the power of street level bureaucrats the aim of this book is to expand awareness of the potentially dangerous power of insulated bureaucrats *One Health, Environmental Health, Global Health, and Inclusive Governance: What can we do?* Ulrich Laaser, Vesna Bjegovic-Mikanovic, Richard Seifman, Flavia Senkubuge, Zeljka Stamenkovic, 2022-09-19 [The Small-Scale Fisheries Guidelines](#) Svein Jentoft, Ratana Chuenpagdee, María José Barragán-Paladines, Nicole Franz, 2017-06-10 In June 2014 FAO member states endorsed the Voluntary Guidelines for Securing Sustainable Small Scale Fisheries SSF Guidelines These Guidelines are one of the most significant landmarks for small scale fisheries around the world They are comprehensive in terms of topics covered and progressive with their foundations based on human rights and other key principles It can be anticipated that implementing the SSF Guidelines whether at local national or regional levels will be challenging This book contains in depth case studies where authors discuss the extent to which the Guidelines can help improve the realities of small scale fishing men and women globally and make their livelihoods and communities more secure This will require policy intervention and innovation along with contributions of civil society organizations and academia However most of all it will necessitate the empowerment of fishing people so that they can become active participants in decision making on matters where their well being and human rights are at stake By endorsing the SSF Guidelines states have committed themselves to support and facilitate this development This book asks whether states can successfully walk the talk and provides advice as to how they can do so The collection of case studies sets the platform for an interactive dialogue space for researchers policy makers civil society and small scale fishing communities to start the conversation about the monitoring and evaluation of the implementation of the SSF Guidelines at local national regional and global levels An added value is that it helps add focus to our work as civil society activists involved in ensuring the application of the SSF Guidelines Naseegh Jaffer General Secretary World Forum of Fisher People WFFP This collection offers many ways in which institutions enabling small scale fisheries can protect and promote sustainability food security customary tenure self management and market access while fostering such benefits as ecosystem based management protected areas incorporation of local knowledge and poverty alleviation You will want to put this book in the hands of policy makers and practitioners immediately and for years to come Evelyn Pinkerton Professor Simon Fraser University Canada

network theory as an explanatory framework for much of its research This research community has come to an understanding that information systems are of necessity socio technical in nature and require a socio technical approach to their investigation Thanks to developments in actor network theory researchers can now approach people and technology as one single entity that gives support to social influences on technological innovations Social Influences on Information and Communication Technology Innovations discusses in great detail the use of actor network theory in offering explanations for socio technical phenomena focusing greatly on information communication technologies Implementation and use of information and communication technologies inevitably involves the interactions of both technology and people This publication facilitates international growth in the body of research investigating the value of using actor network theory as a means of understanding socio technical phenomena and technological innovation

Securing sustainable small-scale fisheries: sharing good practices from around the world Food and Agriculture Organization of the United Nations, 2019-02-26 This document includes eight studies showcasing good practices in support of sustainable small scale fisheries FAO commissioned these studies aiming to share experiences and promote the implementation of the Voluntary Guidelines for Securing Sustainable Small Scale Fisheries in the Context of Food Security and Poverty Eradication SSF Guidelines The case studies were also intended to promote participatory approaches in line with the SSF Guidelines principles and to promote increased interaction between research and fishing communities including the use of traditional knowledge and participatory research It is hoped that the case studies will inform policy and policy processes and in this way promote sustainable small scale fisheries according to the SSF Guidelines and the human rights based approach to development HRBA The case studies constitute a rich selection of experiences and are diverse not only with regard to their geographical setting but also in scope and approach They span from looking at one specific tool for sharing experiences the fisheries learning exchanges methodology in Madagascar and Mozambique or examining the enabling environment in a specific thematic area disaster risks in Bangladesh to regional policy formulation on small scale fisheries the SSF Guidelines protocol for Caribbean policies and reflection on how to use the SSF Guidelines in participatory processes the Myanmar step by step approach to discussions with small scale fisheries communities A few of the papers look at co management in some cases combining fisheries management and social development Senegal Uruguay and Nepal with one focusing on the role of small scale fisheries and community organizations India Generally the case studies refer to HRBA but perhaps because many of the activities have taken place in the past it seems that HRBA has rarely been consciously and explicitly implemented Still the case studies bear witness to a number of experiences and practices that are clearly steps in the right direction Key good practices emerging from the studies refer to among other things holistic approaches to co management and social responsibility broad engagement inclusiveness and partnerships the power of communication and gender equality and the role of women As more experience is gained our knowledge of how to go about implementing the SSF Guidelines will improve

and nurture new and continued initiatives For the present and the future efforts should be made to apply HRBA while continuing to share experiences and good practices showing how to do so when implementing the SSF Guidelines
