The New Politics of Strategic Resources David Steven, Emily O'Brien, Bruce D. Jones, 2014-11-21 Since 2008 energy and food markets those most fundamental to human existence have remained in turmoil Resource scarcity has had a much bigger global impact in recent years than has been predicted with ongoing volatility a sign that the world is only part way through navigating a treacherous transition in the way it uses resources Scarcity and perceptions of scarcity increase political risks while geopolitical turmoil exacerbates shortages and complicates the search for solutions The New Politics of Strategic Resources examines the political dimensions of strategic resource challenges at the domestic and international levels For better or worse energy and food markets are shaped by perceptions of national interest and do not behave as traditional market goods

So while markets are an essential part of any response to tighter resource supplies governments also will play a key role David Steven Emily O'Brien Bruce Jones and their colleagues discuss what those roles are and what they should be The architecture for coordinating multilateral responses to these dynamics has fallen short raising questions about the effective international management of these issues Politics impede here too as the major powers must negotiate political and security trade offs to cooperate on the design of more robust international regimes and mechanisms for resource security and the provision of global public goods This timely volume includes chapters on major powers United States India China and key suppliers Russia Saudi Arabia The contributors also address thematic topics such as the interaction between oil and state fragility the changing political dynamics of climate change and the politics of resource subsidies **FINANCE AND CONTINENTAL DEVELOPMENT PLAN** MARCO KAMANGO, MARCO WEMBULUA KAMANGO ALBERTOVICH, 2020-07-16

Public domestic resources remain a major instrument of development plan via the financial part as they are the largest numerically with a total external financial flows into Africa amounted to 200 billion and domestic taxes 530 billion OECD AFDB 2014 In this book the international economist and transcontinental expert Marco Kamango Wembulua Albertovich proposes as the direct key to financial sustainability and African self sufficiency domestic resources in association with proactive leadership and continental commitment at both the political and institutional levels for achieving a successful national then continental development **Enabling legal frameworks for sustainable land-use investments in Tanzania: Legal assessment report** Robert Kibugi, D. Andrew Wardell, Marie-Claire Cordonier Segger, Caroline Haywood, Renée Gift, 2015-10-08 The International Development Law Organization IDLO and the Center for International Forestry Research CIFOR assessed the legal frameworks that govern land use activities and investments in Tanzania The policy institutional and legal frameworks are well developed although implementation and enforcement remains weak due to ambiguities in the law and a general lack of supportive incentives This Legal Assessment report for Tanzania examines four key challenges to the attainment of sustainable land use investments These comprise Enforcement of environmental and social safeguards Tanzania has made progress in implementing the Environmental Management Act by ensuring greater compliance with the Environmental Impact Assessment regulations although exceptions exist in the construction sector and mining legislation that often enables the government to circumvent important land tenure safeguards Incentives for sustainable investments in the legal framework A lack of incentives exists despite the creation of the Tanzania Investment Centre the adoption of an Investment Guide in 2013 and the incorporation of sustainability considerations into laws and policies governing investments in the agriculture energy and forestry and mining sectors Land tenure security Tanzania's land law framework now includes formal recognition of customary title and the reservation of land under the category of village land exclusively for Tanzanians although improvements are still needed in terms of processes of consultation and compensation Public awareness and lack of access to information Awareness of natural resources and investment policies

Greenhill,2025-08-15 Johnson Stoskopf s Comparative Health Systems A Global Perspective explores the evolving landscape of health care delivery worldwide Part I introduces fundamental concepts including health and disease health policy and economics and the role of international health organizations Part II delves into the health systems practices and policies of over 20 countries considering factors such as geography culture and historical context Each country is thoroughly assessed in terms of cost quality access and innovation The third edition examines the impact of the global COVID 19 pandemic on health care systems and the response of different countries It also addresses other challenges and opportunities such as global pandemics disasters conflicts changes in the U S health system and the role of non governmental organizations Updated throughout the 3rd edition also offers 13 new chapters including Global Health and Disease 3 emphasizes the importance of integration of the healthcare system with the public health system for effective intervention in the cycles of diseasesDistinct chapters on 10 new countries Cuba Norway Finland Poland Slovakia Czech Republic Egypt South Africa Taiwan and SingaporeThe Business of Health Care 27 discusses value based care and long term care as it relates to the business of healthcare 11 Bonus Chapters in the eBook including a new chapter on the Sustainable Development Goals SDGs along with 10 chapters covering the health systems and policies of 10 additional countries including Peru Ireland Finland T rkiye Poland Nigeria Botswana and more Comparative Health Systems Global Health Systems or World Health Systems courses in Health Administration Public Health Nursing and other allied health programs 2026 600 pages *Gender Responsive Budgeting in Fragile States* Monica Costa,2017-08-16 A growing number of governments have made commitments to achieving gender equality and women s rights with many using gender responsive budgeting GRB to allocate resources for the delivery of economic policy and governance that benefit men and women equally At a time when GRB is growing in global traction this book investigates what it can deliver for gender

equality and state resilience in contexts where the state is weak or prone to violence such as in Timor Leste Gender Responsive Budgeting in Fragile States The Case of Timor Leste uses the Timor Leste case to investigate whether gender equality reform can be adopted at the same time as establishing economic and institutional fundamentals While some may have thought that the adoption of GRB strategy in 2008 was premature Monica Costa argues that GRB initiatives have contributed to budget accountability and transparency and ultimately improved policy and budget processes and decisions This multi disciplinary analysis of a decade of GRB demonstrates why GRB is important to inform the debate on state fragility resilience and argues that fragile states cannot defer gender equality in the name of getting the economic and institutional basics right While a growing number of fragile states have taken steps to make their budget more gender responsive questions remain for economists and policy makers about what can be achieved and how Gender Responsive Budgeting in Fragile States is the first international publication on GRB in fragile state contexts and will be of interest to researchers upper level students policy makers and NGOs with an interest in policy economics gender and development

Ministry of Defence Great Britain: Parliament: House of Commons: Committee of Public Accounts,2012-05-25 The Ministry of Defence announced in the summer of 2010 that it had a funding gap of 38 billion over the next ten years As part of the Government s efforts to reduce the deficit the Department also needs to reduce its annual spending by 7.5% in real terms by 2015 It intends to achieve a significant proportion of its required savings by reducing its civilian personnel by 29 000 and its military personnel by 25 000 which it estimates will save 4.1 billion between 2011 and 2015 The Department is currently enacting a transformation programme to change its way of working in order to deliver on the Strategic Defence and Security Review priorities with fewer staff However the Department has put plans in place to implement reductions in its workforce before it has finalised its new operating model The operating model will set out how the Department will meet its objectives in the future but its reductions in workforce will be well advanced before the model is agreed There is concern that plans to reduce the workforce have been determined more by the need to cut costs than by considering how to deliver its strategic objectives and that there is a risk of further skills gaps developing This could make the Department increasingly reliant on external expertise with consultancy expenditure having already grown from 6 million in 2006-07 to 270 million in 2010-11

The Oxford Handbook of the Ethiopian Economy Fantu Cheru,Christopher Cramer,Arkebe Oqubay,2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will

never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia **Federal Budget in Brief** Pakistan. Finance Division,2010 *Republic of Iraq Public Expenditure Review* The World Bank,2014-08-26 This Public Expenditure Review PER provides an integrated perspective on Iraq s need to provide better public service delivery while maintaining macroeconomic stability and fiscal discipline The achievement of these objectives unfolds within a challenging context of revenue volatility the need to diversify the economy weak accountability mechanisms and residual conflict Reflecting these challenges key socio economic developmental indicators are stalled or even declining despite rapid growth in public spending Indeed the review shows that growth in spending has not been matched by absorptive capacity let alone improved outcomes The difficult task of constructing the fiscal institutions to embed the practices of good economic management remains a work in progress The PER is one component of World Bank assistance to the government to improve public expenditure policy and management The challenge for the Iraqi authorities in the years ahead will be to turn oil revenues into sustained welfare improvements Macroeconomic stability alone is not enough to address social and economic development issues and to avoid a resource curse Iraq s oil wealth alone cannot generate sustainably high living standards for the majority of its population Economic diversification is an imperative both to create jobs and to promote income generating opportunities for the Iraqi population The key challenges for the authorities therefore are i to remove constraints to non hydrocarbon economic activities ii to ensure the efficient use of oil revenue and iii to restrain the growth of current spending in particular wage bill and subsidies to free up resources for public investment while maintaining essential safety nets and social support for the poor and disadvantaged Public investment management is a crosscutting capability that is needed to meet Iraq s development objectives The government has the opportunity to take concrete steps now The PER proposes approaches and actions to better use Iraq s oil revenues by shifting to a save and invest via curbing inefficient spending and redirecting resources to public investment and basic services As economic growth prospects are favorable in the medium term the Iraqi government has the opportunity to lay the foundations of a broadly diversified economy with a reasonable footprint that provides decent public services and security while facilitating adequate economic freedom Senior policy makers at the Ministry of Finance Ministry of Planning and line ministries are the primary audience of this work

private sector **Rising to the Challenge** National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on Comparative National Innovation Policies: Best Practice for the 21st Century, 2012-08-06 America's position as the source of much of the world's global innovation has been the foundation of its economic vitality and military power in the post war. No longer is U.S. pre-eminence assured as a place to turn laboratory discoveries into new commercial products, companies, industries and high paying jobs. As the pillars of the U.S. innovation system erode through wavering financial and policy support, the rest of the world is racing to improve its capacity to generate new technologies and products, attract and grow existing industries and build positions in the high technology industries of tomorrow. Rising to the Challenge: U.S. Innovation Policy for Global Economy emphasizes the importance of sustaining global leadership in the commercialization of innovation which is vital to America's security, its role as a world power and the welfare of its people. The second decade of the 21st century is witnessing the rise of a global competition that is based on innovative advantage. To this end, both advanced as well as emerging nations are developing and pursuing policies and programs that are in many cases less constrained by ideological limitations on the role of government and the concept of free market economics. The rapid transformation of the global innovation landscape presents tremendous challenges as well as important opportunities for the United States. This report argues that far more vigorous attention be paid to capturing the outputs of innovation, the commercial products, the industries and particularly high quality jobs to restore full employment. America's economic and national security future depends on our succeeding in this endeavor **Annual Report** India. Ministry of Finance, 2011 Agricultural Development and Food Security in Africa Renu Modi, Fantu Cheru, 2013-08-08 The subject of food security and land issues in Africa has become one of increased importance and contention over recent years. In particular, the focus has shifted to the role new global South donors, especially India, China and Brazil, are playing in shaping African agriculture through their increased involvement and investment in the continent. Approaching the topic through the framework of South-South co-operation, this highly original volume presents a critical analysis of the ways in which Chinese, Indian and Brazilian engagements in African agriculture are structured and implemented. Do these investments have the potential to create new opportunities to improve local living standards, transfer new technology and knowhow to African producers and reverse the persistent productivity decline in African agriculture? Or will they simply aggravate the problem of food insecurity by accelerating the process of land alienation and displacement of local people from their land? Topical and comprehensive Agricultural Development and Food Security in Africa offers fresh insight into a set of relationships that will shape both Africa and the world over the coming decades.
