The horror stories you have heard about adolescence are false This is Dr Laurence Steinberg s reassuring message to parents
in this newly revised edition of his classic book You and Your Adolescent which Publishers Weekly says is filled with solid
advice for the parents of adolescents Among the new topics in this updated edition An expanded definition of adolescence to
age twenty five recognizing that college graduates often remain dependent on their parents for an extended period creating
a new parent child dynamic A discussion of social media that addresses whether parents of preteens and young teens should
monitor use of these new communication tools What new research into the adolescent brain tells us about teenage behavior
As Dr Steinberg writes Most books written for parents of teenagers were survival guides many still are Nowadays
adolescence is too long fifteen years in some families for mere survival Knowledge not fortitude is what today s parents need

Trusheim, 1988-03-31 The College Entrance Examination Board and the Educational Testing Service claim that the SAT helps
colleges select students helps college bound students select appropriate institutions and furthers equality of opportunity But
does it really Drawing on three national surveys and on hundreds of studies conducted by colleges the authors refute the
justifications the College Board and the ETS give for requiring high school students to take the SAT They show that the test
neither helps colleges and universities improve their admissions decisions nor helps applicants choose schools at which they
will be successful They outline the adverse effect the SAT has on students from nonwhite and low income backgrounds They
also question the ability of the College Board and the ETS to monitor themselves adequately The authors do not however
recommend abolishing either college admissions testing or the College Board and the ETS Rather they propose dropping the

SAT and relying on such already available measures as students high school coursework and grades and they raise the possibility that new achievement tests that measure the mastery of high school courses could be developed to replace the SAT
