relevance to specialists the general public should find the presentation attractive because of the huge interest today in marijuana Unfortunately society has become so specialized and compartmentalized that most people have limited appreciation of the importance of science to their lives except when a topic like marijuana becomes sensationalized This review of cannabis can serve as a vehicle for public education in the realm of science and technology Indeed towards the goal of disseminating the important information in this book to a wide audience the presentation is user friendly concise and well illustrated in the hope that non specialists will find the topics both informative and entertaining Molecular basis of epigenetic regulation in cancer therapies Ángeles Carlos Reyes,César López-Camarillo,Guillermo Barreto,Heriberto
