**Professionals** Philip Burnard, 2013-12-20 I try to leave out the parts that people skip Elmore Leonard This book is all about writing it is both a practical and a personal account When you write a book like this you put yourself on the line you run the risk of people reading what you have written and saying he's saying one thing and doing another You stand to break the rules that you set up quite badly That is probably not such a terrible thing besides that should be part of the process of using this book As you read it notice when rules are broken Check the phrasing the sentence and paragraph construction and see whether or not I have stuck to the rules Then see whether or not the rules would have improved the passage in question Begin to read books as much for their style layout and general format as for their content If you are going to write you need to see plenty of examples of all of these things good bad and indifferent to write for some time but was always This is a book I have wanted nervous of writing so here it is an introduction to some of the ways and means of writing It is as I say personal I hope it will be useful A word about sexism and the writing process I find the use of his or her and its variants clumsy

*Modern Essays and Stories* Frederick Houk Law, 1922

**Modern Essays and Stories** Various Authors, 1912-01-01

In all schools pupils are expected to write essays but curiously enough essay reading and essay writing are taught but little In spite of that neglect the essay is so altogether natural and spontaneous in spirit so intensely personal in expression and so demanding of excellence of prose style that it is the form par excellence for consideration in school if teachers are to show pupils much concerning the art of writing well The essay is to prose what the lyric is to poetry complete genuine and beautiful self expression or better still self revelation Most of the writing done in schools is straightforward narration of events without much if any attempt to show personal reactions on those events mere diary like accounts at best mechanical descriptions that aim to present exterior appearance without attempting to reveal inner meanings or to show awakened emotions and stereotyped explanations and arguments drawn for the most part from books of reference or from slight observation Beyond all this mechanical work lies a field of throbbing personal life of joyous reactions on all the myriads of interests that lie close at hand of meditations on the wonders of plant and animal life of humorous or philosophic comments on human nature and of all manner of vague dreams and aspirations aroused by Such sights as youthful poets dream On summer eves by haunted stream Without the slightest question it is the duty of the school and of the teacher in particular to lead pupils to appreciate honesty and originality in unapplied unpragmatic self expression and to show pupils how they themselves may gain the very real pleasure of putting down on paper permanent records of their own intimate thinking Joseph Addison's *The Sir Roger de Coverley Papers* and Washington Irving's *Sketch Book* have for many years made valiant but unsuccessful efforts to fill the places that should be filled by more modern representatives of the essay Macaulay's *Essay*

on Johnson is a biographical article for an encyclopedia his essays on Clive and on Hastings are polemics and Carlyle's Essay on Burns is a critical disquisition With the exception of The Sir Roger de Coverley Papers all these so called essays are of considerable length and are unfitted to serve as the best examples of the essay form for the essay like the lyric demands brevity it is after all only a quick flash of self revelation not a sustained effort Then again who would wish to learn to write like Addison like Washington Irving like Macaulay or like Carlyle Those great writers couched their thoughts in the language fashions of their days just as they clothed their bodies in the garments of their times To imitate either their style of expression or their costumes would be to make one's self ridiculous or to take part in a species of masquerade The extremely Latinized vocabulary of 1711 or the resonant periods and marked antitheses of 1850 are as old fashioned to day as are the once highly respected periwigs great coats and silver shoe buckles of the past The thoughts of yesterday are not the thoughts of to day There is in serious reality such a thing as an old fashioned point of view With all due reverence for the past the best teachers of to day believe that it is just as necessary for students to use present day methods of expression and to cultivate present day interests as it is to take advantage of the railroad the telegraph the telephone the automobile and the thousand other mechanical contrivances that aid life to day but which were unknown in 1711 or in 1850
