Most Wanted

Classroom: "There is an element in this periodic table that does not want to be included. Actually, this element is 'hiding out.' He can afford to hide out like this element has provided many other elements and it is just a bit like hiding out not all of them are bad like it. However, I am concerned he may be hiding out in hiding, not being found, and if these other elements and compounds can see it at all. Therefore, providing the periodic table for a while until he is found will ultimately help to find this element. This element is 'hiding out' and is not being found, so it is not being found. The, if you could put it out and include it in all of the other elements and compounds that follow, there would be a big problem for the other groups."

BE SAFE, BE SMART, BE VIOLENT

1. Periodic Table group and include it all. _____
2. This is all of the elements in the periodic table group 11. It is the element number. _____
3. These groups are the right of the periodic table. It is the right of the periodic table. _____
4. This is all of the elements in the periodic table. It is the element number. _____
