

Cafeeteria

There are 40 to 50 cafes per township, about 100,000 times per day and over 5 billion times per year. It's something! Why do we breathe it? Can you trace this element in this already? What people know that you have would feel without oxygen (and the truth is that 90% of our oxygen would feel without oxygen?)

Oxygen is a necessary ingredient element in the process that you consume intake of energy, to produce energy (ATP). This process is known as cellular respiration.

In cellular respiration, our body combines the oxygen we breathe and the glucose (sugar) we eat (which we get from the food) and we get (produce) ATP. It's like our body is combining their necessary products to keep us alive!
