A *Practitioner's Guide to European Patent Law* Paul England, 2019-10-17. Written by a team of lawyers with long standing experience in patent litigation in Europe this book is a comprehensive and practical guide to European patent law highlighting the areas of consistency and difference between the most influential European patent law jurisdictions the European Patent Office EPO, England and provides an outline in each chapter of the common ground between the national approaches as a guide for the possible application of European patent law in the UPC. *Living the Brand* Nicholas Ind, 2007-10-03. Your company's workforce is its most valuable asset. It is the employees who translate your organization's strategy into reality, interact with consumers and determine the corporate brand. *Living the Brand* demonstrates how you can empower and enthuse your employees to create brand champions. This approach enhances employee commitment, improves service standards and focuses efforts to deliver business goals. This practical inspirational book shows you that employees flourish in organizations where they identify with the brand and organizations flourish when the brand has relevance and creates meaning. Using original international case studies such as IBM, SAS, Airlines, UNICEF, Apple and Nike, *Living the Brand* shows you how to make this happen through research, training, communication, management and review. It examines the nature of branding and why people have become such important definers of their brand. *Living the Brand* is a CarbonNeutral publication. To offset the carbon dioxide emissions generated in the book's production, native trees have been planted with Future Forests. **Micro Java Game Development** David Fox, Roman Verhovsek, 2002. Provides exhaustive coverage of J2ME games, extensions, portable devices and competitive environments. **Security and Privacy in Mobile Information and Communication Systems** Shiguo Lian, 2009-09-19. MobiSec 2009 was the first ICST conference on security and privacy in mobile information and communication systems. With the vast area of mobile technology research and application, the intention behind the creation of MobiSec was to make a small but unique contribution to build a bridge between top level research and large scale application of novel kinds of information security for mobile devices and communication. The papers at MobiSec 2009 dealt with a broad variety of subjects ranging from issues of trust in and security of mobile devices and embedded hardware security over efficient cryptography for resource restricted platforms to advanced applications such as wireless sensor networks, user authentication and privacy in an environment of autonomously communicating objects. With hindsight, a leitmotif emerged from these contributions which corroborated the idea behind MobiSec: a set of powerful tools have been created in various branches of the security discipline which await combined application to build trust and security into mobile that is all future networks, autonomous and personal devices and pervasive applications. **Moody's International Manual**, 1998. *Network World*, 1997-12-15.
