Primavera,Rip Roach,2014-02-16 Millions of baby boomers are just beginning to retire and in doing so many are likely to run into adjustment problems such as loss of identity deterioration of marriage and social life and feelings of disconnectedness to the world Studies have found that as many as 40% of retirees have difficulty adjusting and even those who claim to enjoy retirement may experience some uneasiness as they adapt to a life lacking in structure and direction This book investigates the struggles faced by retirees in building a new life outside of the workforce It provides an honest assessment of retirement based on the not always acknowledged fact that it is a difficult transition with pitfalls and obstacles to be overcome But along with uncovering problems the authors also propose solutions to enable both current and future retirees to be better prepared allowing them to avoid being blindsided by unexpected situations By reading about the experiences of their peers current and future retirees will come to understand that others share their difficulties adjusting and that tactics are available to improve their comfort level in retirement as well as their overall well being Retirees and those planning for retirement will find in these pages what they need to make retirement successful and enjoyable Civil Service Retirement United States.

Inclusive Educational Administration Mary Konya Weishaar,Phillip M. Weishaar,John C. Borsa,2014-01-30 The belief that regular and special education administrators should work together to create and maintain successful education programs for all students is not new nor is the assumption that administrator preparation programs should foster the development of an inclusive approach yet this critical educational partnership has not reached its full potential Despite the lack of agreement within the federal legislative branch on exactly what should be changed within our education system some promising points

of consensus have emerged competitive grants college and career readiness multi tiered systems of support common core standards a rewards based rather than punitive system for school improvement the critical role of effective teachers and principals increased school choice options and evidence based learning strategies particularly in high need schools The third edition stresses the importance of these key points Each chapter features case studies that simulate real life situations readers are likely to encounter in their careers as administrators Within the safety of the classroom they will rehearse controversial scenarios involving inclusive school governance school reform identification and placement conflict resolution program evaluation fiscal issues transportation and discipline Enhanced practice situations and role play exercises emphasize the special education administrator s role in resolving difficult situations The case study approach is an effective learning tool for aspiring special and regular education administrators and instructors alike fostering enthusiastic classroom discussion and critical thinking about potential solutions to today s complex problems in inclusive educational administration
