

## Analyzing Literature Assessment

### Step 1: Review the prompt.

*Layers of meaning exist in all works of literary fiction. Consider the ways the author of your selected short story used style and literary elements, like plot, diction, syntax, figurative language, character, conflict, and setting. Compose an essay in which you analyze and explain how the author's style and employment of literary elements create a particular mood in the text.*

### Step 2: Review your short story and your graphic organizer.

**Step 3:** Outline your essay using the chart below. Begin with your thesis statement, and then fill out the outline based on your thesis. You may or may not use each section, but provide as much information as possible in the planning stage.

**Remember:** outlines are not written in paragraph form. You are only outlining the literary analysis, not writing the entire essay. You will write the essay in a later module.
