

## **Death of A Teacher: Sample Letter to Parents**

Date

Dear Parents/Guardians:

One of the (grade) teachers, (name of teacher), died on (day of week) as the result of a medical condition (or more specific if possible). She (he) was a wonderful teacher loved by all her students and we will miss her greatly. Her commitment to students and love for learning has touched us all.

We encourage you to talk with your child. How we, as adults, manage ourselves serves as an important model for helping kids handle tragedies like this. It is important that they know they are loved and supported as they talk about their feelings. If they want to attend the funeral, we encourage your or another adult to accompany them.

You may want to consider the following when talking with your child:

- Tell the truth. Talk about death vs. "going to sleep." Explain the situation.
- Allow for your child to talk about feelings. If this is the first loss your child has experienced, your child may not know how to respond and will be looking for your guidance.
- Affirm all expressions. It's okay to express feelings honestly. Tolerate the expressions rather than dismissing them or discouraging the expression of feelings.
- Encourage written expressions such notes, letters, pictures to the family etc.
- Reaffirm that your child is safe and that your child is loved.
- Affirm that your child's reaction is normal and you understand the way the child's feels.
- Watch for signs of trouble such as aggression, withdrawal etc.
- Help the children return to as normal routine as possible.

We have had a team of counselors, a social worker and a psychologist at school throughout the day to provide emotional support for our students. If you have special counseling concerns or would like additional support for your child, please call us at (phone number).

Our deepest sympathies go to (teacher's name) family. We care deeply for all involved.

Sincerely,

Name  
Principal

**Public School Emergency Preparedness and Crisis Management Plan** Don Philpott, Paul Serluco, 2009-12-16

Written in accordance with the President's 2003 homeland security directive and the Department of Education's guidelines and in response to the ever present threats facing our school systems this book helps schools and institutions develop a comprehensive emergency response plan. This book outlines programs and procedures that can be applied to any school system to address hazard mitigation and prevention, emergency preparedness and response, and recovery and restoration of school functions to an effective learning environment. It describes specific actions and assigns responsibilities and response roles to district and individual school staff, emergency teams, cooperating agencies, and community response partners that have agreed to share responsibilities and resources as defined in this plan. This book also outlines in the event of an emergency involving response by fire and/or law enforcement, the district school site personnel who should establish an Incident Command System based response organization in accordance with procedures outlined in the National Incident Management System. In addition, the authors predetermine to the extent possible operational procedures across any U.S. school system and cooperating governmental, private, and volunteer agencies for responding to and recovering from any and all types of natural, human, or technology based emergencies that may occur within school system operations or outside the jurisdiction of the school system but nonetheless could cause collateral impact to school system operations. Contents examine emergency notification and immediate actions, concept of operations including first key actions, partnering with community agencies, and the initial briefing, crisis management team, action checklists, response resources including personnel, response team, partners, emergency evacuation, receiving facilities, and emergency equipment and supplies, emergency response flip charts for principals, teachers, secretaries, and custodians, district incident.

**The Pandemic of Argumentation** Steve Oswald, Marcin Lewiński, Sara Greco, Serena Villata, 2022-02-25. This open access book addresses communicative aspects of the current COVID-19 pandemic as well as the epidemic of misinformation from the perspective of argumentation theory. Argumentation theory is uniquely placed to understand and account for the challenges of public reason as expressed through argumentative discourse. The book thus focuses on the extent to which the forms, norms, and functions of public argumentation have changed in the face of the COVID-19 pandemic. This question is investigated along the three main research lines of the COST Action project CA 17132 European network for Argumentation and Public Policy analysis: APPLY descriptive, normative, and prescriptive. The volume offers a broad range of contributions which treat argumentative phenomena that are directly related to the changes in public discourse in the wake of the outburst of COVID-19. The volume additionally places particular emphasis on expert argumentation given i) the importance expert discourse has had over the last two years and ii) the challenges that expert argumentation has faced in the public sphere as a result of scientific uncertainty and widespread misinformation. Contributions are divided into three groups which i) examine various features and

aspects of public and institutional discourse about the COVID 19 pandemic ii scrutinize the way health policies have been discussed debated attacked and defended in the public sphere and iii consider a range of proposals meant to improve the quality of public discourse and public deliberation in particular in such a way that concrete proposals for argumentative literacy will be brought to light Overall this volume constitutes a timely inquiry into all things argumentative in pandemic discourse This volume is of interest to a broad readership including philosophers linguists communication and legal scholars and members of the wider public who seek to better understand the discourse surrounding communicative phenomena in times of crisis COST European Cooperation in Science and Technology is a funding organisation for research and innovation networks For more information [www.cost.eu](http://www.cost.eu)
