*Fearless Major Gifts* Charles LaFond, 2017-11-17 Every major gift is planned and every planned gift is major so this book is written intentionally blurring those lines with the premise that if you know how to identify evaluate cultivate and finally ask for the gift it does not matter if it is a major gift or is a will inclusion leaving the details of bequests to the donors their lawyers and accountants Clergy and others need help learning how to make the ask before the remaining generous generations of capacity anyone over 60 especially die having given their gifts to the non profits and schools so willing and prepared to ask for them LaFond recounts I remember sitting with a beloved dying parishioner who turned to me in her last three hours and quietly said I wish I had remembered the church in my will I asked why she had not and she said sweetly They never asked and everyone else did and so thoroughly Clergy and lay leaders are terrified of asking for major and planned gifts while parishes need them and donors need to give them Clergy are not taught in seminary how to do this essential work of ministry LaFond in his various roles is filling that educational gap     *How to Write Sales Letters That Sell* Drayton Bird, 2002 The right piece of direct mail can produce excellent response rates and have an extraordinary effect on business But why do some sale letters achieve spectacular results whilst others are instantly consigned to the bin This book reveals the secrets of creating successful sales letters Containing examples of real sales letters it includes plenty of advice on what to avoid as well as what to include Key topics are covered such as the secrets of persuasion planning a letter which will get replies creating offers that get responses and timing mailings for maximum effect     *5 Levels of Gifted* Deborah Ruf, Ph.D., 2022-07-30 Formerly titled *Losing Our Minds Gifted Children Left Behind* this book describes differences in developmental stages within the gifted population The children are classified into five levels of giftedness based on behaviors and developmental milestones giving parents and educators a reference guide to compare with their own gifted children or students A child s intellectual level can thus be estimated after which the book provides different educational approaches and practical advice including how to find the best type of school for each level     *A Complaint is a Gift* Janelle Barlow, Claus Møller, 1996 Customer complaints can give businesses a wake up call when they re not achieving their fundamental purpose meeting customer needs They are a feedback mechanism that can help organizations rapidly and inexpensively shift products service style and market focus Businesses that don t value their customers complaints suffer from costly negative word of mouth advertising Presenting dozens of real life striking examples of poor and excellent complaint handling Barlow and Moller show that companies must view complaints as gifts if they are to have loyal customers     **Railroad Gazette** ,1902
