Introduction to Educational Research Craig A. A. Mertler, 2024

Social and Emotional Prevention and Intervention Programming for Preschoolers Susanne A. Denham, Rosemary Burton, 2012-12-06

Social and Emotional Prevention and Intervention Programming for Preschoolers rests on the idea that young children under optimal circumstances develop substantial abilities in social and emotional domains by the time they enter school. These abilities contribute to their success and well being during these early years but even more importantly to both their successful adaptation to school personally and academically and their long term mental health. The chapters of this volume present theoretical foundations for and explanations of what important adults in young children's lives—preschool teachers, daycare providers, parents—can do to encourage the development of such social emotional abilities including promoting secure attachment relationships, providing positive behavior guidance and assisting children in developing emotion knowledge, emotion regulation, social problem solving skills and other positive social behaviors. In addition, the book reviews the current state of early childhood programming in each of these crucial areas with the addition of a chapter on emergent parent programming on emotion coaching. Recommendations are made for making such programming work for assessing individual children's development and program efficacy and necessary future directions for this area are detailed.

Designing Preschool Interventions David W. Barnett, Susan H. Bell, Karen T. Carey, 2002-08-01 This practical text delineates the basic steps of developing effective interventions for learning and behavior difficulties in children aged two to five. The authors set forth an ecological framework that stresses identifying problem situations rather than classifying individual children as disabled or at risk. The core components of naturalistic intervention design are covered in depth including teacher and parent interviewing, classroom observation and functional assessment, team based problem solving, strong accountability methods and legal and ethical safeguards. Solidly grounded in empirical research, the book presents examples of successful interventions for fostering social competence and language skills and improving interactions with parents, teachers and peers.

Understanding Research in Early Childhood Education Jennifer J. Mueller, Nancy File, Andrew J. Stremmel, Iheoma U. Iruka, Kristin L. Whyte, 2024-02-26 This second edition invites readers to be informed consumers of both quantitative and qualitative methods in early childhood research. It offers side by side coverage and comparison about the assumptions, questions, purposes and methods for each, presenting unique perspectives for understanding young children and early care and education programs. The new edition includes updated examples and references as well as a new chapter on equity issues in research. By using this book, students will be able to read, evaluate and use empirical literature more knowledgeably. These skills are becoming more important as early childhood educators are increasingly expected to use evidence based research in practice and to participate in collecting and analyzing data to inform their teaching.

Transcendent Parenting Sun Sun Lim,2020 Whether members of the family are headed to school or work smartphones accompany family members throughout the day The growing sophistication of mobile communication has unleashed a proliferation of apps channels and platforms that link parents to their children and the key institutions in their lives While parents may feel empowered by their ability to provide their children assistance with a click on their smartphone they may also feel pressured and overwhelmed by this need to always be on call for their children This book focuses on the phenomenon of transcendent parenting where parents actively use technology to go beyond traditional physical practices of parenting In drawing on the experiences of intensely digitally connected families in Singapore to tell a global story Sun Sun Lim argues how transcendent parenting can embody and convey intentionally or not the parenting priorities in these households Chapters outline how parents exploit mobile connectivity to transcend the physical distance between themselves and their children the online and offline social

interaction environments and the timelessness of seemingly ceaseless parenting Transcendent Parenting further explores how mobile communication allows parents to be more involved than ever in their children s lives leaving readers to question whether or not parents have become too involved as a result With its clear discussions of the effects of transcendent parenting on parents wellbeing and children s personal development Transcendent Parenting will appeal to a broad audience of readers from scholars educators and policy makers to parents and young people across the globe *Infant Assessment* M. Virginia Wyly, 2018-02-12 Infancy is one of the most fascinating periods in the human life cycle In two short years infants become thinking speaking social beings As this book explains over the past three decades researchers and clinicians have developed an array of assessment methods for measuring infant development and diagnosing infants with developmental delays The field of infant assessment has broadened from a major focus on cognitive development to an emphasis on parent infant interaction play assessment and newer strategies that involve naturalistic observations Because of the need to look at the whole infant assessment often involves multiple disciplines The interdisciplinary approach measures the infant domains of motor skills cognitive abilities and language acquisition and evaluates the infant s psychosocial environment The chapters in this volume provide a solid overview of the current trends in infant assessment measures and procedures The book can be used in undergraduate and graduate infant development courses and for advanced courses in infant assessment
