

## Doctor Recommendation Letter for Patient

---

**Dear Dr. Emily Williams,**

I am writing to provide a recommendation for my patient, Alice Johnson, who has been under my care for the past two years. Throughout this period, I have had the opportunity to observe Alice closely, both in terms of her medical condition and her remarkable qualities as an individual.

Alice has been managing Type 2 diabetes with commendable resilience and adherence to the treatment plan we established. Her commitment to her health and well-being is evident in her consistent attendance to appointments, proactive communication regarding her symptoms, and diligent engagement in prescribed therapies and lifestyle modifications.

During our consultations, Alice has shown not only a profound understanding of her health challenges but also an admirable determination to overcome them. She exemplifies a positive attitude and an openness to embrace treatment options that enhance her quality of life. Such attributes significantly contribute to the progress she has made thus far.

I am confident that Alice will continue to approach any future medical interventions with the same level of dedication and tenacity. Should she pursue further specialized care or any supportive services, I am assured that she will be an exemplary patient, committed to achieving optimal health outcomes.

*Textbook of Adult-Gerontology Primary Care Nursing* Debra J. Hain, Deb Bakerjian, Debra Bakerjian, 2022-02-21

I was thrilled to see content that focuses on quality improvement, patient safety, interprofessional collaboration, care coordination, and other content that supports the role of the AGNP as a clinical leader and change agent. The authors give these topics the attention that they deserve with clear, insightful guidance and, importantly, the evidence base. The chapters that address roles including during disasters, settings of care, billing, and medication use address salient issues that will help the fledgling AGNP to hit the ground running and the seasoned AGNP to keep current.

Marie Boltz, PhD, GNP-BC, FGSA, FAAN, Elouise Ross Eberly, and Robert Eberly, Endowed Professor, Toss and Carol Nese, College of Nursing, Penn State University.

From the Foreword: Written for Adult Gerontology Primary Care Nurse Practitioners, faculty, and students, this primary text encompasses the full scope of AGNP primary care practice across multiple healthcare settings, including telehealth. The text emphasizes the best available evidence to promote person-centered care, quality improvement of care, interprofessional collaboration, and reducing healthcare costs. The text delivers timely information about current healthcare initiatives in the U.S., including care coordination across the healthcare continuum, interprofessional collaboration, and accountable care organizations. Disease-focused chapters contain general and specific population-based assessment and interprofessional care strategies to both common and complex health issues. They offer consistent content on emergencies, relevant social determinants of health, and ethical dilemmas. The text also prepares students for the administrative aspects of practice with information on the physical exam, medications, billing, coding, and documentation. Concise, accessible information is supported by numerous illustrations, learning objectives, quality and safety alerts, clinical pearls, and case studies demonstrating best practice. A robust ancillary package includes an Instructor's Manual with case studies and teaching guides, a Test Bank reflective of clinical situations and patient conditions, PowerPoint covering key concepts, and an Image Bank of skin conditions and other figures.

**Key Features:** Covers several key courses in the curriculum for ease of teaching and learning. Embraces a broad population focus, addressing specific care needs of adolescents through older adults. Facilitates safe care coordination and reinforces best practices across various health care settings, including telehealth. Fosters understanding of diagnosis and management of patients with multimorbid conditions. Incorporates evidence-based practice information and guidelines throughout to ensure optimal informed patient care.

A robust ancillary package includes an Instructor's Manual, a Test Bank, PowerPoint, and an Image Bank.
