Palumbo,2018-08-15 This companion to Frank Herbert s six original Dune novels Dune Dune Messiah Children of Dune God Emperor of Dune Heretics of Dune and Chapterhouse Dune provides an encyclopedia of characters locations terms and other elements and highlights the series underrated aesthetic integrity An extensive introduction discusses the theme of ecology chaos theory concepts and structures and Joseph Campbell s monomyth in Herbert s narratives **Living in Technical Legality** Kieran Tranter,2018-07-02 First comparative study to address the rediscovery of baroque aesthetic in modernism **Paul and Papa-Innocence and Emotions** Harris Vernick,Harris "Cole" Vernick,Paul L. Vernick,2006 A telephone call to Senator J William Fulbright s Washington D C office affected a change of assignment for new Warrant Officer Pilot Thomas Butler to Medical Evacuation School He could not have known how this favor would effect his future and the decisions he would make in combat With only minor glimpses into the struggles of an African American as a Warrant Officer Cadet during the late 1960 s we are catapulted into the jungles of Vietnam Mr Butler presents a rare look into the lives of the men whose task it was to retrieve the wounded from the battlefields and jungles of Vietnam He tells the story like none other has very effectively including the writings of a North Vietnamese officer Captain Trang **Jesuits in Science Fiction: Reason and Revelation on Other Worlds** Richard Feist,2025-01-07 From their founding in 1540 to this day Jesuits have been controversial Their centuries of missionary work have taken them to all corners of the world They have been accused of killing Kings and Presidents and contributing to colonization and destruction of cultures even participating in enslavement But the Jesuits have also been seen as bringers of light and education With their ferocity of purpose and intellectual rigor the Jesuits impact on world history cannot be ignored No surprise then that Jesuits appear in literature especially that literature of ideas exploration and social commentary otherwise known as science fiction This unique collection of essays explores how the Jesuit has long been part of science fiction s history and how Jesuit ideas and characters are featured in some of science fiction s greatest works In this collection we see Jesuits continue their missionary spirit as they take leave of the earth moving their missionary labors literally towards the heavens Reason and revelation are now indeed on other worlds In this collection we have explorations of philosophy science theology and culture all done in typical Jesuit fashion always in various and foreign contexts This collection is akin to others in its linking of religion and science fiction but it is unique in its concentration on the Jesuits and science fiction This collection will be of interest to scholars working and researching in the field of science fiction studies and would be suitable for courses on science fiction But it will also be of interest and accessible to those of us who simply love

American Literature and Culture in an Age of Cold War Steven Belletto,Daniel Grausam,2012-10-01 The time is right for a critical reassessment of Cold War culture both because its full cultural impact remains unprocessed and because some of the chief paradigms for understanding that culture confuse rather than clarify A collection of the work of some of the best cultural critics writing about the period American Literature and Culture in an Age of Cold War reveals a broad range of ways that American cultural production from the late 1940s to the present might be understood in relation to the Cold War Critically engaging the reigning paradigms that equate postwar U S culture with containment culture the authors present suggestive revisionist claims Their essays draw on a literary archive including the works of John Updike Joan Didion Richard E Kim Allen Ginsberg Edwin Denby Alice Childress Frank Herbert and others strikingly different from the one typically presented in accounts of the period Likewise the authors describe phenomena such as the FBI s surveillance of writers especially African Americans biopolitics development theory struggles over the centralization and decentralization of government and the cultural work of Reaganism that open up new contexts for discussing postwar culture Extending the timeline and expanding the geographic scope of Cold War culture this book reveals both the literature and the culture of the time to be more dynamic and complex than has been generally supposed **The Monomyth in American Science Fiction**

Films Donald E. Palumbo,2014-11-05 One of the great intellectual achievements of the 20th century Joseph Campbell s The Hero with a Thousand Faces is an elaborate articulation of the monomyth the narrative pattern underlying countless stories from the most ancient myths and legends to the films and television series of today The monomyth s fundamental storyline in Campbell s words sees the hero venture forth from the world of the common day into a region of supernatural wonder fabulous forces are there encountered and a decisive victory is won the hero comes back from this mysterious adventure with the power to bestow boons to his fellow man Campbell asserted that the hero is each of us thus the monomyth s endurance as a compelling plot structure This study examines the monomyth in the context of Campbell s The Hero and discusses the use of this versatile narrative in 26 films and two television shows produced between 1960 and 2009 including the initial Star Wars trilogy 1977 1983 The Time Machine 1960 Logan s Run 1976 Escape from New York 1981 Tron 1982 The Terminator 1984 The Matrix 1999 the first 11 Star Trek films 1979 2009 and the Sci Fi Channel s miniseries Frank Herbert s Dune 2000 and Frank Herbert s Children of Dune 2003 *Dreams of Duneland* Kenneth J. every turn of the page with Cormac McCarthy and *The Road* next to Robert McCloskey and *Make Way for Ducklings* Alice Walker next to Izaak Walton There are nuts and bolts too best editions to read other books by the author if you like this you'll like that recommendations and an interesting endnote of adaptations where appropriate Add it all up and in fact there are more than six thousand titles by nearly four thousand authors mentioned a life changing list for a lifetime of reading 948 pages later you still want more THE WASHINGTON POST **Evangelicals and the Arts in Fiction** John Weaver, 2013-04-06 This book is an exploration of how the relationship of evangelicals to the arts has been portrayed in fiction for the last century The author argues that evangelicals are consistently seen as enemies of the arts by non evangelical writers The artist typically represented by a literal artist occasionally by a scientist or reluctant messiah typically has to fight for liberation from such cliched character types as the failed evangelical artist the rube or the hypocritical pastor Rather than resist the cliché of anti art evangelicalism the book contends that evangelicals should embrace it this stereotype is only hurtful so long as one assumes that the arts represent a positive force in human society This work built off the scholarship of John Carey does not make that assumption Surveying the current pro artistic views of most evangelicals the author advances the argument that evangelicals need to return to their anti art roots By doing so they would align themselves with the most radical artistic elements of modernism rather than with the classicists that the movement currently seems to prefer and provide space for themselves to critique how secular artistic stereotypes of evangelicals have economically and artistically marginalized the evangelicals community *The Magazine of Fantasy & Science Fiction*, 2009-04
