Weaving Sacred Stories Laura Weigert, 2004 Spanning the backs of choir stalls above the heads of the canons and their officials large scale tapestries of saints' lives functioned as both architectural elements and pictorial narratives in the late Middle Ages In an extensively illustrated book that features sixteen color plates

Laura Weigert examines the role of these tapestries in ritual performances. She situates individual tapestries within their architectural and ceremonial settings, arguing that the tapestries contributed to a process of storytelling in which the clerical elite of late medieval cities legitimated and defended their position in the social sphere. Weigert focuses on three of the most spectacular and little studied tapestry series preserved from the fifteenth and early sixteenth centuries: *Lives of Saints Piat and Eleutherius*, *Notre Dame Tournai*, *Life of Saint Steven*, *Saint Steven Auxerre* (now in the Musée du Moyen Âge, Paris), and *Life of Saints Gervasius and Protasius*, *Saint Julien Le Mans*. Each of these tapestries, measuring over forty meters in length, included elements that have traditionally been defined as either lay or clerical. On the prescribed days when the tapestries were displayed, the liturgical performance for which they were the setting sought to merge the history and patron saint of the local community with the universal history of the Christian church. Weigert combines a detailed analysis of the narrative structure of individual images with a discussion of the particular social circumstances in which they were produced and perceived. *Weaving Sacred Stories* is thereby significant not only to the history of medieval art but also to art history and cultural studies in general.

Online Learning and Community Cohesion Roger Austin, Bill Hunter, 2013-07-04 National governments and multi-national institutions are spending unprecedented amounts of money on ICT to improve the overall quality of school learning, and schools are increasingly expected to prepare young people for a global economy in which intercultural understanding will be a priority. This book explores and analyzes the ways ICT has been used to promote citizenship and community cohesion in projects that link together schools in different parts of the world. It examines the theoretical framework behind such work and shows the impact of initiatives in the Middle East, Canada, the USA, England, Northern Ireland, the Republic of Ireland, and elsewhere in the European Union. This is a critical examination of the technologies that have been deployed, the professional development that has been provided, and an evaluation of what constitutes good practice, particularly in terms of what collaborative learning really means for young people. Many of these initiatives have enabled young people to develop more positive relations with culturally and religiously different neighbours, but this work has just begun. Continuing international tensions over matters of identity and faith require that we better understand the political context for such work so that we might shape future directions more deliberately and more clearly.

Prehistoric Europe Timothy Champion, 2016-06-16 The study of European prehistory has been revolutionized in recent years by the rapid growth rate of archaeological discovery, advances in dating methods, and the application of scientific techniques to archaeological material. New archaeological aims and frameworks of interpretation. Whereas previous work concentrated on the recovery and description of material remains, the main focus is now on the reconstruction of prehistoric societies and the explanation of their development. This volume provides that elementary and comprehensive synthesis of the new discoveries and the new interpretations of European prehistory. After an introductory chapter on the geographical setting and the development of prehistoric studies in Europe, the text is divided chronologically into nine chapters. Each one describes, with numerous maps,

plans and drawings the relevant archaeological data and proceeds to a discussion of the societies they represent Particular attention is paid to the major themes of recent prehistoric research especially subsistence economy trade settlement technology and social organization

[The Hundred Years War, Volume 4](#) Jonathan Sumption, 2015-09-04. The eagerly anticipated fourth volume of Jonathan Sumption's prize-winning history of the Hundred Years War.

The Beggar and the Professor Emmanuel Le Roy Ladurie, 1997-04-11. From a wealth of vividly autobiographical writings, diaries, travel journals, memoirs, Emmanuel Le Roy Ladurie reconstructs the extraordinary life of Thomas Platter, born in France in 1499 and his sons whose rich careers spanned the entire 16th century from medieval times through the Renaissance and into the Reformation. 26 halftones, 5 maps.

The Indo-European Puzzle Revisited Kristian Kristiansen, Guus Kroonen, Eske Willerslev, 2023-05-11. This book examines the impact of ancient DNA research and scientific evidence on our understanding of the emergence of Indo-European languages in prehistory. Offering cutting-edge contributions from an international team of scholars, it considers the driving forces behind the Indo-European migrations during the 3rd and 2nd millennia BC. The volume explores the rise of the world's first pastoral nomads, the Yamnaya Culture, in the Russian Pontic steppe, including their social organization, expansions, and the transition from nomadism to semi-sedentism when entering Europe. It also traces the chariot conquest in the late Bronze Age and its impact on the expansion of the Indo-Iranian languages into Central Asia. In the final section, the volumes consider the development of hierarchical societies and the origins of slavery. A landmark synthesis of recent exciting discoveries, the book also includes an extensive theoretical discussion regarding the integration of linguistics, genetics, and archaeology, and the importance of interdisciplinary research in the study of ancient migration.
