As a United Church minister reflecting on three decades in the House of Commons, he tells the too often overlooked story of Canada's Christian left and in particular of the New Democratic Party's roots in the social gospel and its ongoing influence. This lively book is peppered with personal anecdotes and political personalities and events from Canada's recent history. Foreword by Lloyd Axworthy, former minister of foreign affairs. Includes a colour photo insert      **A History of Indigenous Latin America** René Harder Horst, 2020-03-25 A History of Indigenous Latin America is a comprehensive introduction to the people who first settled in Latin America from before the arrival of the Europeans to the present. Indigenous history provides a singular perspective to political, social, and economic changes that followed European settlement and the African slave trade in Latin America. Set broadly within a postcolonial theoretical framework and enhanced by anthropology, economics, sociology, and religion, this textbook includes military conflicts and nonviolent resistance, transculturation, labor, political organization, gender, and broad selective accommodation. Uniquely organized into periods of 50 years to facilitate classroom use, it allows students to ground important indigenous historical events and cultural changes within the timeframe of a typical university semester. Supported by images, textboxes, and linked documents in each chapter, that aid learning and provide a new perspective that broadly enhances Latin American history and studies, it is the perfect introductory textbook for students      **Israeli Film** Amy Kronish, Costel Safirman, 2003-05-30 Israeli cinema is a central tool for understanding the contemporary challenges facing Israeli society as it has developed its identity during the past decades. Although films can be considered individual pieces of work, we can gain a unique perspective on the nation's society through a careful analysis of the subject matter, issues, and styles of expression of this unique medium. Since its inception, Israeli cinema has been occupied with the hardships of an ongoing war, problems of Jewish-Arab relations, and the major survival issues of the state. Despite this focus, Israeli filmmaking is in fact much more complex and varied. Indeed, it covers a wide spectrum of issues that have developed during the 70 years during the production of its first feature film. Israeli Film: A Reference Guide provides a survey of all major films made in Israel as well as biographies of major Israeli filmmakers and an overview essay summarizing major trends in Israeli film and, in doing so, offers a commentary on social trends, historical challenges, and societal issues      Fire in the Whole Robert G. Callahan, II, 2024-09-24 Fire in the Whole explores the anger of Black Christians who feel betrayed by white Christianity's complicity of perpetuating racism. In this transformative work, author Robert Callahan not only empathizes with this pain, giving words to strong and powerful emotions, but also provides guidance for healing church-related wounds. How can all Christians claim to love and serve the same God and yet see and act in the world so differently? Texas attorney and writer Robert Callahan makes the case that white American Christians have failed to embody both their civic commitment to liberty and justice for all and their biblical call to love every neighbor as Christ loves us. In Fire in the Whole, Callahan explores the poignant journey of

Christians who grapple with their sense of belonging within a faith tainted by toxic political ideologies seeking healing for their souls Boldly questioning the authenticity of individuals within the white Christian community who adhere to Christian nationalism or claim color blind ignorance of racial injustice through cultural conflicts this book navigates the complex modern Christian landscape illuminating deep rooted racial and religious rifts exacerbated by recent political figures and toxic theology Through compelling storytelling and analysis Callahan provides meticulous research and heartfelt insights drawing a roadmap for healing Whether you are a Christian minority who is hurt and angry a progressive white ally seeking understanding of what went wrong or a conservative white Christian willing to engage in constructive dialogue to rebuild a fractured community this book is a powerful guide to navigating the flames of righteous anger and emerging whole again

*Water Capitalism* Walter E. Block, Peter L. Nelson, 2015-10-30 Water covers some 75% of the earth's surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of some species e.g. whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water
